

To

The Coordinator,
Internal Quality Assurance Cell (IQAC),
SRM University Delhi-NCR, Sonapat

Subject: Submission of CIIE Activity Report for the Academic Year 2023-24

Dear Sir,

I am writing to formally submit the report of activities organized by the Center for Innovation, Incubation, and Entrepreneurship (CIIE) for the academic year 2023-24.

The report provides detailed documentation of **19 events** conducted during the year, focusing on fostering innovation, entrepreneurship, and skill development among students. These events have been pivotal in promoting experiential learning and community engagement.

The complete report comprises **369 pages** and includes all relevant documents such as event descriptions, photographs, attendance records, and feedback from participants. This submission is made in accordance with the requirements of the IQAC for quality assurance and academic auditing.

Thank you for your support and guidance in ensuring the success of these initiatives.

Sincerely,

Dr. Md Ahamad Mohiddon Convener
Coordinator, CIIE Center For innovation, incubation and entrepreneurship

Activities report 2023-24 (Academic Year)

S.No.	Theme	Date	Venue	Resource Person	Participants	Outcome
1	Summer Training Program	10.07.2024 to 06.08.2024	Online	Faculty members from CSE and Law departments	75	Skill Enhancement course on Web Development, Android development, DSA, Cloud Computing and IPR conducted in online.
2	SRM Builds 5.0	18th and 19th May 2024	A106, 107, 108 New Engineering Block	Mr. Vikas Garg, Hitachi, CSE dept faculty members	50	Students are shortlisted for SRM IST Fintech hackathon which will provide interns and placements for winners
3	ML Workshop	9th and 10th May 2024	211 Old Engineering Block	Core members CIIE	70	Students were made familiar about the basic algorithm of ML and Tenserflow tools.
4	Alumni interaction	1st May 2024	210 Old Engineering Block	Mr. Pushkar and Ms. Ekta Kapoor Purple	40	Participants are exposed to real time startup experience.
5	MSME interaction	1st May 2024	210 Old Engineering Block	Mr. Rahul Gupta and Mr. Shiv Shankar Goel MSME	40	Participants are exposed to MSME and possibility of innovations
6	Data Analytics workshop	2nd and 3rd May 2024	211 Old Engineering Block	Core members CIIE	40	workshop equipped participants with essential analytical skills, enhancing their ability to interpret data effectively for informed decision-making.
7	Cyber Beast workshop	12th April 2024	College Auditorium, Law Block	Cybe Beast members	50	workshop empowered participants with practical knowledge of safeguarding digital systems, enhancing their skills in threat detection and prevention techniques.
8	AWS Back-End workshop	15th 16th and 18th April 2024	211 Old Engineering Block	Core members CIIE	60	workshop equipped participants with cloud computing knowledge and hands-on experience, enhancing their ability to deploy, manage, and scale applications on the AWS platform.
9	Python workshop	3rd to 5th April 2024	Conference Hall, 5th Floor, Engineering Block	Core members CIIE	70	workshop provided participants with foundational programming skills, enabling them to write efficient code for various applications in data analysis, automation, and software development.

Convener
 Center For innovation, incubation and entrepreneurship
 SRM University Delhi-NCR, Sonipat

10	UI/UX workshop	27th and 28th March 2024	5th floor computer science lab, Conferenc hall, EB block	Core members CIIE	100	workshop equipped participants with essential design principles and practical skills, enabling them to create user-friendly and aesthetically appealing digital interfaces.
11	Mahakumbh 2024 visit	18th to 20th March 2024	Bharath Mandapam, New Delhi	Organisers of Mahakumbh 2024	70	sparked entrepreneurial innovation, providing participants with valuable insights, mentorship, and networking opportunities, while showcasing cutting-edge solutions across diverse industries.
12	SRM Builds 4.0	9th and 10th Dec 2023	2nd and 3rd floor EB	Core members CIIE	150	Competitive spirit in modern technologies including AIML, Web development, App development, UIUX are provided to the students.
13	SIH 2023	23rd Sept 2023	G 04, Old Block	Computer Science, Mechanical Engineering faculty members	100	fostered innovative problem-solving among participants, empowering them to develop practical solutions for real-world challenges through collaborative teamwork and creativity.
14	Cyber Security workshop	10th Nov 2023	Conference Hall, 5th Floor, Engineering Block	Core members CIIE	60	workshop empowered participants with practical knowledge of safeguarding digital systems, enhancing their skills in threat detection and prevention techniques.
15	API workshop	2nd Nov 2023	University Auditorium, Old Law block	Core members CIIE	80	workshop enabled participants to understand and implement API integration, enhancing their ability to develop and connect software applications efficiently.
16	UIUX workshop	1st Nov 2023	Conference Hall, 5th Floor, Engineering Block	Core members CIIE	60	workshop equipped participants with essential design principles and practical skills, enabling them to create user-friendly and aesthetically appealing digital interfaces.
17	Arduino workshop	28th and 29th Oct 2023	102, Old Engineering Block	Core members CIIE	50	Students are made familiar about the Microcontroller hardware and software for projects
18	Sonepat Startup Summit	22nd Sept 2023	IIT Delhi Technopark	IIT Delhi	50	Students were exposed to startup
19	Web Development workshop	27th Sept 2023	302 Old Engineering Block	Core members CIIE	50	Students were trained in front-end with basic technologies HTML, CSS, Java script etc.

Report on Summer Training Program (10th July – 6th August 2024)

Organized by CIIE, SRM University Delhi-NCR, Sonapat

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, successfully conducted a **Summer Training Program** from **10th July to 6th August 2024** in an online mode. The training program aimed at enhancing students' skills in various cutting-edge technologies and critical areas of intellectual property rights, focusing on hands-on learning and practical application.

Courses and Faculty Coordinators:

The program covered five distinct courses, each coordinated by esteemed faculty members with expertise in their respective domains. The details are as follows:

1. Web Development

- *Coordinators:* Dr. Sayyed Mohtashim Mian, Dr. Uqab Ali
- The course introduced students to modern web technologies, covering HTML, CSS, JavaScript, frameworks like React, and backend development.

2. App Development

- *Coordinators:* Dr. Ravi Sharma, Dr. Atif Mahmood
- Focused on mobile application development using platforms like Android Studio and Flutter, providing students hands-on experience in building apps from scratch.

3. Data Structures and Algorithms

- *Coordinators:* Dr. Namrata Sukhija, Dr. Komal Mahi Choudhary
- This course focused on the fundamental principles of data structures and algorithms, emphasizing problem-solving techniques and efficient coding practices.

4. Cloud Computing

- *Coordinators:* Dr. Ajay Sharma, Dr. Mani Devi
- The course provided insights into cloud architectures, deployment models, services like AWS and Microsoft Azure, and hands-on experience in managing cloud infrastructure.

5. Intellectual Property Rights (IPR)

- *Coordinators:* Dr. Prateek Deol, Dr. Priyanka
- This course introduced the participants to the key aspects of Intellectual Property Rights, including patents, trademarks, copyrights, and the procedures for filing patents.

Mode of Instruction:

All classes were conducted online through interactive live sessions, recorded lectures, and tutorials. The students had access to a wide range of resources, including reference materials, code repositories, and case studies, through a learning management system.

Assessment Methods:

Assessments were carried out using a **continuous assessment model** and a **project-based presentation** at the end of the course.

- **Continuous Assessment:** Regular assignments and quizzes were given to the students, which helped in reinforcing the concepts learned during the sessions.
- **Project Presentation:** Each student was required to submit a final project, which was evaluated based on innovation, practical application, and presentation. The projects provided an opportunity for students to apply their learning to real-world scenarios.

Outcomes:

- Students gained valuable practical knowledge and developed projects demonstrating their skills in the respective areas.
- The program also fostered peer-to-peer learning through collaborative projects.
- The course on IPR equipped students with the knowledge needed to protect their innovations in a competitive market.

Conclusion:

The Summer Training Program was well-received, with participants expressing satisfaction with the comprehensive content, hands-on experience, and support provided by the faculty. The success of this program reflects CIIE's commitment to nurturing innovation, entrepreneurship, and technical excellence among the students at SRM University Delhi-NCR, Sonapat.

CENTER FOR INNOVATION INCUBATION AND ENTREPRENEURSHIP

Ref. No. SRMUH/CIIE/2024/

Date: 03.07.2024

NOTE

Sub: Proposal for organizing an online Summer Training Program.

The Center for Innovation Incubation and Entrepreneurship (CIIE) is planning to conduct a non-credit certificate course in the online mode during this summer vacation. The program will include a series of specialized courses coordinated by esteemed faculty members from the Department of Computer Science Engineering. The objective of this initiative is to enhance the skills and knowledge of students and professionals in the field of computer science and engineering.

Courses Offered:

1. **Cloud Computing**
 - a. **Coordinators:** Dr. Ajay Sharma, Dr. Mani Devi
 - b. **Content:** Introduction to cloud services, deployment models, cloud architecture, and practical applications.
2. **App Development**
 - a. **Coordinators:** Dr. Ravi Sharma, Dr. Atif Mahmood
 - b. **Content:** Mobile app development for Android and iOS, user interface design, backend integration, and deployment.
3. **Data Structures and Algorithm**
 - a. **Coordinators:** Dr. Namrata Sukhija, Dr. Komal Mahi Choudhary
 - b. **Content:** Fundamental data structures, algorithm design and analysis, and practical problem-solving techniques.
4. **Web Development**
 - a. **Coordinators:** Dr. Sayyed Mohtashim Mian, Dr. Uqab Ali
 - b. **Content:** Basics of HTML, CSS, JavaScript, frameworks, and tools for creating responsive and interactive web applications.

Justification:

The proposed online summer training program aims to provide comprehensive and practical knowledge in key areas of computer science and engineering. The courses are designed to meet the current industry standards and demands, thereby enhancing the employability and skill set of the participants. This initiative aligns with the mission of CIIE to promote innovation, entrepreneurship, and continuous learning. A certification of appreciation to the course coordinators is proposed to be provided upon the successful completion of the courses.

With the outlined plan and initial ideas, we seek your kind consideration and approval to proceed with the organization of this online summer training program. We believe that this initiative will significantly contribute to the academic and professional growth of the participants and further the mission of CIIE.

CENTER FOR INNOVATION INCUBATION AND ENTREPRENEURSHIP

Ref. No. SRMUH/CIIE/2024/

Date: 03.07.2024

NOTE

Sub: Proposal for organizing an online Summer Training Program on IPR.

The Center for Innovation Incubation and Entrepreneurship (CIIE), in collaboration with the SRMUH Centre for Intellectual Property Rights (SCIIPR), is planning to conduct a non-credit certificate course on Intellectual Property Rights (IPR) during this summer vacation starting from the second week of July 2024. This initiative aims to enhance the understanding and application of IPR among students and faculty members from various disciplines.

Course Structure:

Online Classes:

A total of 30 hours of instructional content

Classes conducted by esteemed faculty members from the Department of Law
Interactive sessions with Q&A

Expert Talks:

Four expert talks introducing the latest developments in the field of IPR

Sessions led by renowned experts and practitioners in IPR

Proposed honorarium for experts: Rs/- 10,000 (total for four experts) ✓

Course Coordinator: Dr. Prateek, Department of Law

Justification:

The proposed online summer training program is designed to provide a comprehensive understanding of IPR, which is crucial for fostering innovation and protecting intellectual property in various fields. The program will not only benefit participants by enhancing their knowledge and skills but also contribute to the broader goal of promoting research and innovation. A certification of appreciation to the faculty members who delivered the classes is proposed to be provided at the end of the course.

With the outlined plan and initial ideas, we seek your kind consideration and approval to proceed with the organization of this online summer training program. We believe that this initiative will significantly contribute to the academic and professional growth of the participants and further the mission of CIIE and SCIIPR.

Dear Students,

Greetings from Center for Innovation Incubation and Entrepreneurship (CIIE).

We are thrilled to announce a unique opportunity for you to enhance your knowledge and skills with our upcoming non-credit certificate course on Intellectual Property Rights. This course is organized in collaboration with the SRMUH Centre for Intellectual Property Rights (SCIPR) and will be coordinated by Dr. Prateek Deol from the Department of Law.

Major Insights of the Course:

- **Cyber and IPR:** Understand the intersection of cyberspace and intellectual property rights, including issues like domain name disputes and online copyright infringements.
- **Law on Incubation:** Learn about the legal aspects of incubating start-ups, including the protection of intellectual property within incubation centers.
- **Data Protection and IPR:** Explore the relationship between data protection laws and intellectual property rights, and how they impact businesses and individuals.
- **IPR on Nanotechnology and Biotechnology:** Gain insights into the specific intellectual property challenges and protections related to nanotechnology and biotechnology innovations.
- **Copyright Law:** Delve into the fundamentals and complexities of copyright law, including how to protect creative works.
- **Design Law:** Learn about the legal protection available for industrial designs and the processes involved in registering and enforcing design rights.
- **Patents Law:** Understand the intricacies of patent law, including the process of obtaining patents and the enforcement of patent rights.

Course Structure:

Mode: Online Classes and Offline

A total of 30 hours of instructional content

Classes will be conducted by esteemed faculty members from the Department of Law

Interactive sessions with Q&A

Assessment: Online and offline modes

Expert Talks:

Four expert talks introducing the latest developments in the field of IPR

Sessions led by renowned experts and practitioners in IPR

Coordinator: Dr. Prateek Deol, Department of Law

Commencement Date: 13th July 2024

Registration: To register for the course, please scan the QR code provided below. The last date for registration is 12th July 2024.

<https://ciiesrmuh.in/events>

Don't miss this opportunity to gain valuable insights and a certificate in Intellectual Property Rights. The proposed online summer training program is designed to provide a comprehensive understanding of IPR, which is crucial for fostering innovation and protecting intellectual property in various fields. The program will not only benefit participants by enhancing their knowledge and skills but also contribute to the broader goal of promoting research and innovation.

We look forward to your participation in this enriching learning experience.

Best regards,

Dr. Md. Ahamad Mohiddon
Convener, CIIE

Note: For getting the course completion certificate 75% attendance and 50% marks in all assessments is mandatory.

Dear Students,

Hope this email finds you well. We are excited to inform you about an upcoming Summer Training Program that is organised by CIIE which aims to enhance your skill set in various cutting-edge domains. This program is designed to provide you with hands-on experience and comprehensive knowledge in the following areas:

1. Cloud Computing

- **Coordinators:** Dr. Ajay Sharma, Dr. Mani Devi
- **Content:** This module will cover an introduction to cloud services, deployment models, cloud architecture, and practical applications. You will gain insights into the workings of cloud technologies and how to leverage them effectively.

2. App Development

- **Coordinators:** Dr. Ravi Sharma, Dr. Atif Mahmood
- **Content:** This module focuses on mobile app development for both Android and iOS platforms. You will learn about user interface design, backend integration, and the deployment process. By the end of this course, you will be equipped to develop and launch your own mobile applications.

3. Data Structures and Algorithms

- **Coordinators:** Dr. Namrata Sukhija, Dr. Komal Mahi Choudhary
- **Content:** This module delves into fundamental data structures, algorithm design and analysis, and practical problem-solving techniques. This is an essential course for those looking to strengthen their understanding of core programming concepts.

4. Web Development

- **Coordinators:** Dr. Sayyed Mohtashim Mian, Dr. Uqab Ali
- **Content:** This module covers the basics of HTML, CSS, and JavaScript, along with frameworks and tools for creating responsive and interactive web applications. You will learn to build functional and visually appealing websites from scratch.

The Summer Training Program is an excellent opportunity to develop new skills, network with peers, and receive mentorship from our esteemed faculty. Participation in this program will not only boost your knowledge but also add significant value to your academic and professional journey.

We encourage you to take full advantage of this opportunity. All the details regarding the program are attached in the following posters. Should you have any questions, please feel free to reach out to the given contact number.

We look forward to your enthusiastic participation and after completion you will be awarded by a certificate issued by CIIE.

Best regards,

Dr. Md. Ahamad Mohiddon

Coordinator, Centre of Innovation, Incubation, and Entrepreneurship (CIIE)

Dear Students,

Greetings from Center for Innovation Incubation and Entrepreneurship (CIIE).

We are thrilled to announce a unique opportunity for you to enhance your knowledge and skills with our upcoming non-credit certificate course on Intellectual Property Rights. This course is organized in collaboration with the SRMUH Centre for Intellectual Property Rights (SCIPR) and will be coordinated by Dr. Prateek Deol from the Department of Law.

Major Insights of the Course:

- **Cyber and IPR:** Understand the intersection of cyberspace and intellectual property rights, including issues like domain name disputes and online copyright infringements.
- **Law on Incubation:** Learn about the legal aspects of incubating start-ups, including the protection of intellectual property within incubation centers.
- **Data Protection and IPR:** Explore the relationship between data protection laws and intellectual property rights, and how they impact businesses and individuals.
- **IPR on Nanotechnology and Biotechnology:** Gain insights into the specific intellectual property challenges and protections related to nanotechnology and biotechnology innovations.
- **Copyright Law:** Delve into the fundamentals and complexities of copyright law, including how to protect creative works.
- **Design Law:** Learn about the legal protection available for industrial designs and the processes involved in registering and enforcing design rights.
- **Patents Law:** Understand the intricacies of patent law, including the process of obtaining patents and the enforcement of patent rights.

Course Structure:

Mode: Online Classes and Offline

A total of 30 hours of instructional content

Classes will be conducted by esteemed faculty members from the Department of Law

Interactive sessions with Q&A

Assessment: Online and offline modes

Expert Talks:

Four expert talks introducing the latest developments in the field of IPR

Sessions led by renowned experts and practitioners in IPR

Coordinator: Dr. Prateek Deol, Department of Law

Commencement Date: 13th July 2024

Registration: To register for the course, please scan the QR code provided below. The last date for registration is 12th July 2024.

<https://ciiesrmuh.in/events>

Don't miss this opportunity to gain valuable insights and a certificate in Intellectual Property Rights. The proposed online summer training program is designed to provide a comprehensive understanding of IPR, which is crucial for fostering innovation and protecting intellectual property in various fields. The program will not only benefit participants by enhancing their knowledge and skills but also contribute to the broader goal of promoting research and innovation.

We look forward to your participation in this enriching learning experience.

Best regards,

Dr. Md. Ahamad Mohiddon
Convener, CIIE

Note: For getting the course completion certificate 75% attendance and 50% marks in all assessments is mandatory.

Center for Innovation, Incubation and Entrepreneurship (CIIE)
in collaboration with
SRMUH Centre for Intellectual Property Rights (SCIIPR)
 is offering a non-credit certificate course on
Intellectual Property Rights (IPR)
 in online mode from the second week of July 2024.

MAIN COURSE CONTENT

 Design law	 Copyright law
 Patents law	 Law on Incubation
 Cyber and IPR	 Data Protection and IPR
 IPR on Nanotechnology and Biotechnology	

Course Coordinator:
 Dr. Prateek Deol, Associate Professor, Department of law

Events

CIIE regularly hosts events and hackathons, ensuring that everyone has a fair chance to spotlight their skills and abilities in a relaxed and inclusive environment.

We are actively hosting single as well as budled courses that not only act as a [launchpad for beginners](#) but also provide an opportunity [for experienced programmers to upskill themselves](#). From basics to deployment, from fundamentals to complex algorithms, we cover everything here.

Collaboration with SCIPR

Intellectual Property Right Course
starts from 13 July 2024

In this workshop, we dive deep into intersection of cyberspace, intellectual property rights and others

Single courses

App Development Workshop
6 July 2024 => 30 July 2024

In this workshop, we dive deep into app development technologies like Flutter and React-Native that are emerging nowadays.

Cloud Learning Workshop
6 July 2024 => 30 July 2024

In this workshop, we dive deep into cloud technologies that are emerging nowadays

Web Development Workshop
6 July 2024 => 30 July 2024

In this workshop, we dive deep into web development technologies that are emerging nowadays

Dsa Workshop
6 July 2024 => 30 July 2024

In this workshop, we dive deep into data structures that are emerging nowadays

Bundle courses

App + cloud development
6 July 2024 => 30 July 2024

Web + cloud development
6 July 2024 => 30 July 2024

CIIE

Embark on an enriching summer experience with the CIIE SRMUH Summer Training Program! Explore the fundamental and expansive realms of Data Structures and Algorithms (DSA), Cloud Computing, Web Development, and App Development on this transformative journey.

This comprehensive program, offered by the CIIE and esteemed Faculty of SRM University, promises to equip you with the knowledge and tools needed to thrive in today's digital world.

APP DEVELOPMENT

Transform your ideas into reality by mastering app development—where innovation meets creation!

24 CIIE (004) || Dr. Ravi Sharma & Dr. Atif Mahmood

CLOUD COMPUTING

Harness the power of cloud computing and explore the latest cloud technologies!

24 CIIE (001) || Dr. Ajay Sharma & Dr. Mani Devi

WEB DEVELOPMENT

Delve into the world of web development, mastering the fundamentals and a framework!

24 CIIE (002) || Dr. Sayyed Mohtashim Mian & Dr. Uqab Ali

DS AND ALGORITHMS

Dive deep into the foundational concepts of Data Structures as well as Algorithms!

24 CIIE (003) || Dr. Namrata Sukhija & Dr. Komal Mahi Choudhary

Starts from - 4th JULY 2024

Report on SRM Builds 5.0 Hackathon

Event Overview: SRM Builds 5.0, an internal hackathon organized as part of the SRM Fintec Hackathon series, was held from 18th to 19th May 2024 at SRM University Delhi-NCR, Sonapat. This event was a preliminary round where the top three teams were selected to represent our campus at the SRM Fintec Hackathon, a competition spanning across eight SRM campuses. The hackathon was designed to foster innovation and creativity in the fintech domain, encouraging students to develop cutting-edge solutions to real-world challenges.

Hackathon Structure:

- **Kickoff:** The event kicked off at 10:00 AM on May 18th, with a total of 4 senior and 7 junior teams registered, each consisting of 2-3 members. The teams were tasked with addressing one of three problem statements provided, each focusing on critical aspects of fintech innovation.
- **Problem Statements:**
 1. **Personalized Financial Assistant:** Develop an AI-powered assistant to help consumers manage their finances, make payments, and offer budget advice with flexible payment options.
 2. **E-Cash Payment Gateway:** Create a solution for in-game purchases, enabling players to use e-cash to buy virtual goods, items, or upgrades within online games.
 3. **Principle-Based Digital Transaction Authentication:** Develop frameworks for digital transaction authentication that serve as an alternative to OTP (One-Time Password).

Judging and Progress Checks: The hackathon was evaluated by a panel of esteemed judges from both industry and academia, ensuring a thorough and fair assessment of the projects:

- **Mr. Vikas Garg:** Representative from Hitachi
- **Dr. Ravi:** Assistant Professor, CSE Department, SRM University Delhi-NCR, Sonapat

To ensure the teams were on track, progress checks were conducted three times during the hackathon. These checks were supervised by the following faculty members:

- **Dr. Mohan:** Head of CSE Department & Dean of Students Welfare

- **Dr. Dilshant:** Associate Professor, Department of CSE
- **Prof. Ajay Sharma:** CSE Department & Deputy CoE.

Faculty Mentorship: Two faculty mentors provided continuous guidance and support throughout the event:

- **Dr. Uqab Ali Baba:** Assistant Professor, Department of Environment Science & Member of CIIE
- **Dr. Md. Ahamad Mohiddon:** Associate Professor & Head, Department of Physics & Coordinator, CIIE

Outcome and Awards: At the conclusion of the hackathon, the top three teams were selected based on their innovative solutions, technical execution, and presentation skills. These teams were shortlisted to represent SRM University Delhi-NCR, Sonapat, at the SRM Fintec Hackathon, which will be held at the SRM IST campus in KTR. The winners were awarded goodies as tokens of appreciation for their hard work and creativity by Prof. V. Samuel Raj, Registrar and Dean academic affairs.

Conclusion: The SRM Builds 5.0 Hackathon was a resounding success, providing a platform for students to showcase their talent and develop solutions to pressing fintech challenges. The event not only identified top talent to represent our campus in the upcoming SRM Fintec Hackathon but also contributed to the students' overall learning experience by offering them the opportunity to work on real-world problems under the guidance of experienced mentors.

NOTE

Sub: Proposal for organizing the internal hackathon of SRM-IST.

SRM-IST, School of computing in collaboration with software technology park of India is planned to conduct a SRM Hackathon in financial technologies domain for all the students of the SRM group. This hackathon will carry in two parts, a preliminary round followed by finals. The Preliminary round will be conducted at respective campus with experts preferably from Fintech industries and selected top 3 teams will be sent to finals. The final competition will be held at SRMIST main campus. Following this Center for Innovation Incubation and Entrepreneurship (CIIE) is planning to conduct internal hackathon with title "SRM Builds 5.0: SRM Fintech hackathon". This hackathon will be open for all 3rd and 4th year B. Tech as well as 1st and 2nd year MBA enthusiastic participants. The registration email and advertisement were circulated to all students and approximately one hundred registrations are expected. This will be a 24hrs hackathon, where students will stay two days and one night at the campus, working on the different problem statements of the hackathon mentioned in the advertisement. The tentative dates for the hackathon are 11th and 12th May 2024. The approximate budget for conducting the same will be Rs. 50,000/- (in advance). The splitting of the budget details is as follows. For successful conduction of the event, there is requirement of IT support (1 members), security guard (2 members), cleaning staff (1 members), whole EB block, and auditorium. Further, there is a requirement of transport facility (one bus) from Majlis Park Metro station. Also required Banners and Posters printing, stationaries for conference kit arrangement.

1. Food (1 dinner+ 1 breakfast+1lunch) for 100 members	- 20,000
2. Goodies for the winners and runners of different events	- 10,000 medals
3. Transport and refreshments for Judges and Mentors	- 10,000
4. Miscellaneous	- 10,000
	<u>5,000</u>
	Total = <u>50,000</u>

With these initial ideas, a proposal is put forward to your kind consideration.

Rs. 35,000/-

SRM FINTECH HACKATHON

It is planned to conduct a SRM Hackathon in the Financial Technologies domain for the students of SRM Group in Collaboration with Software Technology Parks of India, Chennai. This Hackathon will be Coordinated by Career Centre, SRMIST, School of Computing and SIIC. There will be Preliminary round followed by Finals. Preliminary rounds will be conducted in respective campuses, and Finals will be conducted at Kattankulathur campus. Top 3 teams from each campus will be called for Finals.

Highlights of the Hackathon:

A chance to win coveted FinBlue funding <https://finblue.stpi.in/>

Team Size: 2 to 3 members

Timelines:

Registration starts from: 4th May 2024

Registrations will be closed by 9th May 2024.

Prelims will be conducted between 10th to 31st May 2024

Finals date will be announced later

Each team shall register and submit a Proposal with the following details

- Abstract
- Detailed Methodology
 - o Market Analysis of the application
 - o Consumer Viability and acquisition for the application
 - o Technology to be used
 - o Roadmap from Technology to Business
- Team members and Details (Name, Reg.No, College, Dept., Email, Mobile)

Prelims shall be conducted at the respective campus with Experts (preferable from Fintech industries) and send the Top 3 teams with details not later than 1st June 2024.

Dr. Ahamad

Invitation to Participate in SRM Builds 5.0 X Fintech Hackathon

1 message

CIIE SRMUH <ciie@srmuniversity.ac.in>

Tue, May 14, 2024 at 8:37 PM

To: everyone@stu.srmuniversity.ac.in

Cc: "Dr. M. Mohan" <m.mohan@srmuniversity.ac.in>, "Prof. V. Samuel Raj" <registrar@srmuniversity.ac.in>

Dear Students,

We are thrilled to invite you and your team to participate in the SRM Builds 5.0 X Fintech Hackathon, hosted by CIIE. This exciting event will take place on May 18th and 19th, 2024, with the kickoff commencing at 10:00 AM on the 18th.

The hackathon aims to bring together innovative minds to tackle challenges in the fintech industry, and we believe your expertise and creativity would greatly contribute to the success of the event.

Here are some key details:

- Dates: May 18th and 19th, 2024
- Timing: Kickoff at 10:00 AM on May 18th
- Team Size: 2-3 members

Problem Statements:

1. Develop a personalized financial assistant powered by AI that helps consumers manage their finances, make payments, and suggest budget advice and optimal payment options, including flexible payment choices.
2. Develop an e-cash payment gateway solution for in-game purchases, enabling players to use e-cash to buy virtual goods, items, or upgrades within online games.
3. Develop approaches and frameworks for principle-based digital transaction authentication (alternate for OTP).

We believe that your team has the expertise and creativity to tackle these challenges effectively.

Please confirm your participation by tomorrow i.e. 15th May 2024 by 8PM by registering at <https://forms.gle/yCdUWudagJBtmqcQ9>

We look forward to seeing you and your team at SRM Builds 5.0 X Fintech Hackathon!

Best regards,
CIIE

Two-Day Machine Learning Workshop

Organized by:

Centre for Innovation, Incubation, and Entrepreneurship (CIIE), SRM University, Delhi-NCR

Date: May 9th and 10th, 2024

Time: 9:30 AM to 4:00 PM

Venue: Room No. 211 (Old EB), SRM University, Delhi-NCR

Number of Participants Registered: 70

Number of Participants Completed the Workshop: 64

Workshop Mentor: Mr. Karan Singh

Faculty In-charge: Dr. Md Ahamad Mohiddon

Introduction

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University, Delhi-NCR, successfully organized a comprehensive two-day workshop on Machine Learning on May 9th and 10th, 2024. This hands-on workshop was designed to provide participants with an in-depth understanding of machine learning concepts and their practical applications. It was aimed at both beginners and those with some prior knowledge, offering a balanced blend of theoretical insights and hands-on exercises.

Machine learning is a cornerstone of modern artificial intelligence, with applications ranging from data analysis to automation. This workshop focused on key aspects of machine learning, including supervised and unsupervised learning, model evaluation, and hyperparameter tuning. The event attracted a diverse group of participants eager to enhance their skills and understanding of machine learning.

Workshop Proceedings

Day 1: May 9th, 2024

The workshop commenced at 9:30 AM with an introductory session on machine learning, providing participants with a foundational understanding of the field. The session covered the history and evolution of machine learning, its significance in the modern world, and its various applications across industries.

The morning session then transitioned into an exploration of the mathematics underlying machine learning. Participants were introduced to key mathematical concepts such as linear

algebra, calculus, and probability, which are essential for understanding machine learning algorithms. These concepts were explained in a practical context, allowing participants to see their direct application in machine learning models.

In the afternoon, the focus shifted to supervised learning. Participants engaged in hands-on exercises where they built and trained their first supervised learning models. The session covered various algorithms, including linear regression, decision trees, and support vector machines, providing participants with practical experience in implementing these models.

Day 2: May 10th, 2024

The second day began with an introduction to unsupervised learning, where participants learned about clustering and dimensionality reduction techniques. The session included hands-on exercises in implementing algorithms like K-means clustering and principal component analysis (PCA). Participants were able to see how unsupervised learning can be used to uncover hidden patterns in data.

The afternoon session focused on model evaluation and validation. Participants learned about various metrics used to evaluate model performance, such as accuracy, precision, recall, and F1-score. They also explored techniques for model validation, including cross-validation, and gained insights into the importance of avoiding overfitting.

The final session of the workshop was dedicated to hyperparameter tuning, training, and testing. Participants learned how to fine-tune their models to achieve optimal performance, and they engaged in practical exercises to apply these techniques to their own models.

Key Outcomes

Comprehensive Understanding: Participants gained a solid understanding of both supervised and unsupervised learning models, along with the mathematics that underpins these models.

Practical Application: The hands-on nature of the workshop ensured that participants could apply the concepts learned in real-world scenarios, enhancing their practical skills in machine learning.

Evaluation and Improvement: Participants learned how to evaluate and validate machine learning models, as well as how to fine-tune their models for better performance.

Recognition and Rewards: The workshop concluded with a quiz that tested participants' knowledge. The top three performers received special goodies, and additional rewards were given to participants who excelled during the session.

Conclusion

The two-day Machine Learning Workshop organized by CIIE was a resounding success, equipping participants with valuable knowledge and practical skills in the field of machine learning. Through a combination of theoretical sessions and hands-on exercises, participants were able to build, evaluate, and fine-tune their machine learning models, preparing them for future challenges in the rapidly evolving field of artificial intelligence.

Acknowledgments

We extend our sincere gratitude to the mentors, faculty members, and administrative staff of SRM University, Delhi-NCR, for their unwavering support in organizing this workshop. Their commitment to fostering innovation and skill development among students is greatly appreciated.

Hands-on workshop on Machine Learning.....

1 message

CIIE SRMUH <ciie@srmuniversity.ac.in>

Mon, May 6, 2024 at 9:34 PM

To: everyone@stu.srmuniversity.ac.in

Cc: "Dr. Mahamad Ahamad Mohiddon" <mahamad.ahamad@srmuniversity.ac.in>, "Dr. M. Mohan" <m.mohan@srmuniversity.ac.in>, HOD ME <hod.me@srmuniversity.ac.in>, "Dr.Preeti Physics" <preeti.phy@srmuniversity.ac.in>

Dear Students

The Center for Innovation, Incubation, and Entrepreneurship is conducting a workshop on machine learning. This workshop will be a hands-on workshop in which we'll be making models to process both supervised and unsupervised models and building the practical application of machine learning.

During the workshop, you'll learn:

Introduction to ML.

ML Mathematics.

Supervised learnings.

Unsupervised Learnings.

Evaluation and validation.

Hyperparameter tuning.

Training and testing.

About workshop:

Date: 9 May, 10 May.

Timing: 9:30 a.m. to 4:00 p.m..

Venue: 211 (Old EB).

Registration Link: <https://forms.gle/xr5m4Pdxrm4SL7qR6>

Join the WhatsApp Group: <https://chat.whatsapp.com/ELwCHUf3dy65ATQnJ409MP>

At the end of the session, we'll be coinciding, and quizzes and goodies will be provided to the top three winners. Goodies will also be provided to those who perform well during the session.

Best wishes

**Dr. Md Ahama Mohiddon
Coordinator, CIIE**

Interaction with Alumni Entrepreneurs

Organized by:

Centre for Innovation, Incubation, and Entrepreneurship (CIIE), SRM University, Delhi-NCR

Date: May 1st, 2024

Time: 2:30 PM to 4:30 PM

Venue: Room Number 210, Old Engineering Block, SRM University, Delhi-NCR

Guests:

Ms. Ekta Kapoor, Entrepreneur, currently at Purple

Mr. Pushkar, Entrepreneur, currently at Purple

Introduction

On May 1st, 2024, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University, Delhi-NCR, organized a highly anticipated interaction session with alumni entrepreneurs. The event featured two distinguished alumni, Ms. Ekta Kapoor and Mr. Pushkar, who are both currently working at Purple, a leading startup. This session was an invaluable opportunity for current students to gain insights into the entrepreneurial journey from two successful alumni who have made significant strides in the startup ecosystem.

The interaction was designed to inspire students by providing them with first-hand experiences from seasoned entrepreneurs. The discussion focused on the challenges and opportunities in the startup world, the importance of idea exchange, and the essential qualities needed to thrive as an entrepreneur. Additionally, the session included engaging activities that demonstrated the behavioral aspects of entrepreneurship.

Event Proceedings

Welcome and Introduction

The event began with a warm welcome from the Coordinator of CIIE, who expressed the significance of this session in bridging the gap between current students and successful alumni. The guests, Ms. Ekta and Mr. Pushkar, were introduced, highlighting their achievements and contributions to the startup community, particularly through their work at Purple.

Talk by Ms. Ekta Kapoor: The Entrepreneurial Journey

Ms. Ekta opened the session by sharing her entrepreneurial journey, starting from her time at SRM University to her current role at Purple. She discussed the initial challenges she faced when starting her first venture, including resource constraints, market understanding, and the emotional resilience required to push through tough times.

She emphasized the importance of being passionate about one's ideas and having a clear vision. Ms. Ekta also highlighted the significance of networking and building strong relationships with mentors, investors, and peers, which she identified as crucial to the success of any startup.

Talk by Mr. Pushkar: The Power of Idea Exchange

Following Ms. Ekta's insightful talk, Mr. Pushkar took the stage to discuss the importance of exchanging ideas in the entrepreneurial ecosystem. He spoke about his experiences at Purple, where collaborative brainstorming and open communication have led to innovative solutions and business growth.

Mr. Pushkar encouraged students to actively participate in discussions, seek feedback, and continuously refine their ideas. He also shared practical tips on how to pitch ideas effectively, manage a team, and stay adaptable in a rapidly changing market environment.

Interactive Activities: Embodying the Entrepreneurial Spirit

To bring the lessons of entrepreneurship to life, the session included several interactive activities that allowed students to engage in entrepreneurial scenarios. One of the activities involved a mock startup pitch, where students were divided into teams and tasked with developing and presenting a business idea within a limited timeframe. This exercise helped students understand the pressures and dynamics of pitching to potential investors and stakeholders.

Another activity focused on problem-solving, where students were given real-world challenges faced by startups and asked to propose solutions. This activity fostered critical thinking, teamwork, and creativity, all essential skills for entrepreneurs.

Key Takeaways

Insight into the Entrepreneurial Journey: Students gained valuable insights into the realities of entrepreneurship, including the challenges of starting a business, the importance of resilience, and the need for a clear vision.

The Value of Idea Exchange: The session underscored the importance of exchanging ideas and collaborating with others in the entrepreneurial ecosystem. Students learned how open communication and feedback can lead to innovation and business growth.

Practical Entrepreneurial Skills: Through interactive activities, students developed practical entrepreneurial skills, such as pitching ideas, problem-solving, and teamwork, which are essential for success in the startup world.

Conclusion

The interaction session with alumni entrepreneurs, organized by CIIE on May 1st, 2024, was a resounding success. The experiences shared by Ms. Ekta and Mr. Pushkar provided students with a deeper understanding of what it takes to succeed as an entrepreneur. The session not only inspired students but also equipped them with practical knowledge and skills that will be invaluable in their entrepreneurial journeys.

Acknowledgments

We extend our heartfelt thanks to Ms. Ekta Kapoor and Mr. Pushkar for taking the time to share their experiences and insights with our students. We also express our gratitude to the administration and faculty of SRM University, Delhi-NCR, for their support in organizing this event. Lastly, we thank the students for their enthusiastic participation and engagement throughout the session.

Photos from the event are attached below.

This report provides a comprehensive overview of the event, detailing the key discussions, activities, and outcomes that contributed to its success.

Interaction with MSME members

Organized by:

Centre for Innovation, Incubation, and Entrepreneurship (CIIE), SRM University, Delhi-NCR

Date: May 1st, 2024

Time: 11:00 AM to 2:00 PM

Venue: Conference Hall, SRM University, Delhi-NCR

Guests:

Mr. Rahul Gupta, Chartered Accountant, MSME

Mr. Shiv Shankar Goel, MSME Specialist

Introduction

On May 1st, 2024, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University, Delhi-NCR, had the privilege of hosting an insightful interaction session with prominent members of the Micro, Small, and Medium Enterprises (MSME) sector of Haryana state. The session featured esteemed guests, Mr. Rahul Gupta, Chartered Accountant specializing in MSMEs, and Mr. Shiv Shankar Goel, a seasoned MSME specialist, who shared their extensive experience and knowledge with the students.

This interaction was designed to provide students with a comprehensive understanding of the MSME sector, the stock market, and entrepreneurship. The session focused on the significance of startups, the role of the stock exchange, and the benefits it offers to businesses, as well as the importance of exchanging ideas and fostering an entrepreneurial mindset. In addition, the event included engaging activities that helped students understand the behavioral aspects of being a successful entrepreneur.

Event Proceedings

Welcome and Introduction

The event commenced with a warm welcome by the Coordinator of CIIE, who introduced the distinguished guests to the audience. The session began with an overview of the MSME sector's role in the Indian economy, highlighting its contribution to employment generation, innovation, and economic growth.

Talk by Mr. Rahul Gupta: The Role of Stock Exchange in Startups

Mr. Rahul Gupta started his session with an introduction to the stock market, explaining its structure, functions, and relevance to the MSME sector. He emphasized the critical role that stock exchanges play in supporting startups and small businesses by providing them with access to capital, enabling them to scale their operations, and fostering transparency and credibility.

Mr. Gupta also discussed the various benefits that businesses can derive from being listed on the stock exchange, such as increased visibility, improved investor confidence, and enhanced access to funding. He provided practical insights into the process of listing a company on the stock exchange and the regulatory requirements involved.

Talk by Mr. Shiv Shankar Goel: Entrepreneurial Insights and the Importance of Idea Exchange

Following Mr. Gupta's session, Mr. Shiv Shankar Goel took the stage to share his experiences as an MSME specialist. His talk focused on the entrepreneurial journey, from ideation to execution, and the challenges faced by entrepreneurs in the MSME sector. Mr. Goel highlighted the importance of exchanging ideas and collaborating with peers, mentors, and industry experts to refine business concepts and strategies.

He emphasized the need for entrepreneurs to be adaptable, resilient, and innovative in order to succeed in a competitive market. Mr. Goel also discussed the significance of networking and building strong relationships with stakeholders, investors, and customers.

Interactive Activities: Developing an Entrepreneurial Mindset

To make the session more engaging and practical, several interactive activities were conducted. These activities were designed to simulate real-world entrepreneurial scenarios, encouraging students to think critically and creatively about problem-solving, decision-making, and leadership.

One of the key activities involved role-playing exercises where students assumed the roles of entrepreneurs, investors, and customers. This activity allowed participants to experience the dynamics of business negotiations, pitching ideas, and managing stakeholder expectations.

Another activity focused on team collaboration, where students were tasked with developing a business plan for a hypothetical startup. This exercise reinforced the importance of teamwork, communication, and strategic thinking in entrepreneurship.

Key Takeaways

Comprehensive Understanding of Stock Exchange: Students gained valuable insights into the functioning of the stock exchange and its role in supporting MSMEs and startups. They learned about the benefits of listing a company on the stock exchange and the regulatory requirements involved.

Entrepreneurial Skills Development: The session provided students with practical knowledge about entrepreneurship, including the challenges and opportunities in the MSME sector. The interactive activities helped students develop key entrepreneurial skills such as problem-solving, decision-making, and leadership.

Importance of Networking and Idea Exchange: The session underscored the significance of networking, collaboration, and the exchange of ideas in fostering innovation and business success. Students were encouraged to actively participate in networking opportunities and seek mentorship to enhance their entrepreneurial journeys.

Conclusion

The interaction session with MSME members, organized by CIIE on May 1st, 2024, was a resounding success. It provided students with a deeper understanding of the MSME sector, the role of the stock exchange, and the essential qualities of successful entrepreneurs. The insights shared by Mr. Rahul Gupta and Mr. Shiv Shankar Goel, combined with the practical activities, equipped students with the knowledge and skills needed to navigate the complexities of entrepreneurship and make informed decisions in their future ventures.

Acknowledgments

We extend our sincere gratitude to Mr. Rahul Gupta and Mr. Shiv Shankar Goel for sharing their valuable time and expertise with our students. We also thank the administration and faculty of SRM University, Delhi-NCR, for their support in organizing this event. Special thanks to the participants for their enthusiastic involvement in the session.

Two-Day Workshop on Data Analytics

Date: May 2nd and 3rd, 2024

Venue: Room No. 211, Centre for Innovation, Incubation, and Entrepreneurship (CIIE)

Number of Participants Selected: 40

Number of Participants Successfully Completed the Course: 32

Mentors: Mayank Gupta, Shivansh, Sumit, Ashwin, Rahul

Introduction

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, in collaboration with Department of Physics organized a comprehensive two-day workshop on Data Analytics on May 2nd and 3rd, 2024. This workshop was designed to equip participants with essential data analysis and interpretation skills, promoting an environment that fosters innovation and entrepreneurship.

In today's data-driven landscape, the ability to analyze and interpret vast datasets is a critical competency across various industries. The workshop focused on providing participants with hands-on experience using key data analytics tools and techniques, demonstrating their practical applications across multiple domains.

Workshop Proceedings

Day 1: May 2nd, 2024

The workshop commenced with a morning session that began at 10:30 AM and concluded at 1:00 PM. This session was dedicated to Excel and Power BI, two fundamental tools in data analytics. The participants engaged in hands-on exercises and interactive sessions led by the expert mentors. These sessions provided valuable insights into data manipulation and visualization, enabling participants to understand how to effectively utilize Excel and Power BI for real-world data analysis tasks.

The afternoon session, running from 2:00 PM to 4:30 PM, further explored the applications of Excel and Power BI in practical scenarios. Participants were encouraged to apply the techniques they learned in the morning session to more complex problems, enhancing their analytical capabilities.

Day 2: May 3rd, 2024

The second day of the workshop maintained the structure of the first, with a morning session from 10:30 AM to 1:00 PM and an afternoon session from 2:00 PM to 4:30 PM. The focus shifted to SQL and Python, two powerful tools for data querying, manipulation, and analysis. The morning session introduced participants to the fundamentals of SQL, enabling them to perform data queries and manipulations efficiently. This was followed by an introduction to Python programming, where participants learned about its applications in data science.

The afternoon session provided extensive hands-on practice with SQL and Python. Participants applied the concepts learned earlier in the day, working on practical exercises that solidified their understanding of data analytics techniques. The day concluded with a quiz and other interactive activities, where the winners were recognized with prizes, adding a competitive yet collaborative spirit to the workshop.

Key Outcomes

Enhanced Understanding: Participants developed a deep understanding of essential data analytics tools such as Excel, Power BI, SQL, and Python.

Practical Skills: The workshop provided practical skills in data manipulation, visualization, querying, and analysis, ensuring participants could apply these tools in real-world scenarios.

Real-World Applications: Participants gained insight into the real-world applications of data analytics across various domains, preparing them for the challenges of data-driven decision-making.

Networking and Collaboration: The workshop fostered collaboration and networking among participants and mentors, creating opportunities for future collaboration and learning.

Conclusion

The two-day workshop on Data Analytics was a resounding success, providing participants with valuable skills and knowledge in the rapidly evolving field of data analysis. Through a blend of theoretical instruction and practical application, participants were well-equipped to navigate the complexities of data-driven decision-making. The workshop not only enhanced their technical competencies but also encouraged innovation and critical thinking.

Acknowledgments

We extend our heartfelt gratitude to the administration of SRM University Delhi-NCR for their unwavering support and encouragement in making this workshop possible. Their commitment to fostering innovation and skill development among students is greatly appreciated.

Sub: Request for permission to conduct a 2-day workshop on "DATA ANALYTICS" in collaboration with CIIE

The Department of Physics in collaboration with CIIE is planning to organize a 2-day workshop on "DATA ANALYTICS" in the first week of May 2024. The workshop will provide an excellent opportunity for the students to get skills in the latest data analytical techniques. The details of the proposed workshop are as follows:

Title of the workshop: "DATA ANALYTICS"

Duration of the Event: 2nd and 3rd May 2024

Venue: Room No. 210 & 211 CIIE center.

We, therefore, request you to kindly provide your permission to organize the workshop. You are also requested to grant your kind permission to provide some financial support of Rs. 2000.00 and other necessary facilities for the same. The proposed expenditure will be used towards the purchase of goodies for the winner and runner of the competition held during the workshop.

We are looking forward to your kind support and permission for the same.

Dr. Navin Chandra Joshi

2-day workshop on Data Analytics by Department of Physics in collaboration with CIIE

1 message

HOD Physics <hod.physics@srmuniversity.ac.in>

Wed, May 1, 2024 at 6:27 AM

To: everyone@stu.srmuniversity.ac.in

Cc: Dean Science & Humanities SRMUH <deansh@srmuniversity.ac.in>, Department - Physics <dept.physics@srmuniversity.ac.in>

Dear Students,

We are excited to announce a unique opportunity for you to enhance your skills in the field of **data analytics**! The Department of Physics, in collaboration with the Center for Innovation, Incubation and Entrepreneurship (CIIE), is organizing a Data Analytics Workshop on May 2nd and 3rd, 2024.

In today's data-driven world, proficiency in data analytics is becoming increasingly essential across various disciplines. Whether you are interested in research, entrepreneurship, or simply want to broaden your skill set, this workshop will provide you with valuable insights and practical knowledge.

Here are the details of the workshop:

Date: May 2nd and 3rd, 2024

Time: 9:30 AM to 4:30 PM

Venue: Room Number 210, Engineering Block.

Topics Covered: Introduction to Data Analytics, Data Visualization, Statistical Analysis, Hands-on Exercises, SQL, Applications to Physics, and more.

This workshop is open to all students regardless of your academic background or level of expertise in data analytics. Whether you're a beginner or have some prior knowledge, there will be something valuable for everyone.

To register for the workshop, please

https://docs.google.com/forms/d/1rf1z8RZhW1KG_UG1r9QGIF0OaCYUydF0prBdBZQGMM0/viewform?edit_requested=true.

Spaces are limited, so be sure to secure your spot as soon as possible!

Don't miss out on this fantastic opportunity to dive into the world of data analytics and gain valuable skills that will benefit you in your academic and professional pursuits.

If you have any questions or require further information, please do not hesitate to contact us Dr. Navin Chandra Joshi (7300516775).

We look forward to seeing you at the workshop!

Best regards,

Dr. Md. Ahamad Mohiddon

Cyber Security Event in Collaboration with Cyber Beast

Event Date: April 12th, 2024

Venue: College Auditorium

Timing: 9:30 AM – 12:30 PM

Introduction

On April 12th, 2024, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, in collaboration with Cyber Beast, successfully organized a comprehensive session on cybersecurity. This event was designed to provide students with a deep understanding of the cybersecurity field, focusing on essential topics like bug bounty programs, Kali Linux, ethical hacking, and the tools necessary for testing and ensuring application security.

Event Overview

The session was structured into several key segments, each led by experts from Cyber Beast, a renowned training and consulting firm specializing in application security and cybersecurity training. The session covered the following topics:

1. Bug Bounty Programs:

- The experts provided insights into how bug bounty programs work, emphasizing the importance of ethical hacking in identifying and resolving security vulnerabilities in software and applications.

2. Introduction to Kali Linux:

- A practical session on Kali Linux, a powerful platform used by cybersecurity professionals for penetration testing and security auditing, was conducted. Students were introduced to its functionalities and how it can be effectively used for ethical hacking.

3. Ethical Hacking:

- The concept of ethical hacking was thoroughly explored, with a focus on how ethical hackers can legally break into systems to discover weaknesses before malicious hackers can exploit them.

4. Testing Tools:

- Various testing tools essential for cybersecurity practices were demonstrated, providing students with hands-on experience and knowledge on how to use these tools effectively.

5. Career Growth as a Fresher in Cybersecurity:

- The session concluded with valuable guidance on career opportunities in cybersecurity, particularly for freshers. The experts shared their experiences, discussed the skill sets required, and provided advice on how to kickstart a career in this rapidly growing field.

Student Engagement and Outcomes

The event witnessed enthusiastic participation from a diverse group of students, ranging from beginners with an interest in cybersecurity to those already practising in the field. The session not only equipped them with technical knowledge but also offered a platform to interact and network with professionals from Cyber Beast.

Post-event feedback indicated that the students found the session immensely beneficial, particularly the hands-on training and career advice. Many students expressed a newfound interest in pursuing careers in cybersecurity, inspired by the expert talks and practical demonstrations.

Conclusion

The collaboration between CIIE and Cyber Beast proved to be a significant step in nurturing and developing cybersecurity skills among students at SRM University Delhi-NCR. The event successfully met its objectives of providing students with a solid foundation in cybersecurity and guiding them towards potential career paths in this field.

This session marks the beginning of a series of similar initiatives aimed at empowering students with the knowledge and skills needed to excel in emerging technological fields.

Dear Students

CIIE, in collaboration with Cyber Beast, is conducting a day session on cyber security in which experts from Cyber Beast will communicate with us; they'll be training sessions on cyber security and career growth in the future🚀🚀.

Expert's session on:

Bug Bounty programs

About Kali Linux

Ethical hacking

Testing Tools

Career Growth as a Fresher

This session will provide you with immense knowledge about the cybersecurity field and where to start. At the end of the session, you'll get a chance to network with the experts from Cyber Beast, so don't let this opportunity pass. Whether you are an explorer beginner or you are practising cyber security,

Event details:

venue📍: Collage Auditorium

Timing🕒: 9:30 am–12:30 pm

Date📅: 12 April

About Cyber Beast: It's a training and consulting firm that provides solutions to their clients with application security and provides training to beginners to help them grow in their cyber security careers.

Registration link🔗 - <https://forms.gle/g8tnxAaLxSYT1Wiz5>

All the best

Three-Day Backend Development Workshop

Organized by:

Centre for Innovation, Incubation, and Entrepreneurship (CIIE), SRM University, Delhi-NCR

Date: April 15th, 16th, and 18th, 2024

Time: 9:30 AM to 4:00 PM

Venue: CIIE Lab, SRM University, Delhi-NCR

Number of Participants Registered: 60

Number of Participants Completed the Workshop: 54

Workshop Mentors: Various experts from the industry and faculty from SRM University

Introduction

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University, Delhi-NCR, organized a comprehensive three-day workshop on Backend Development from April 15th to 18th, 2024. This workshop was tailored to equip students with the essential skills and knowledge needed to excel in backend technologies. The event attracted a diverse group of participants, ranging from seasoned developers seeking to expand their expertise to newcomers eager to explore the backend realm.

Backend development is a critical component of modern web and application development. It involves server-side operations, database management, and ensuring that the server, application, and database communicate seamlessly. This workshop was designed to provide participants with practical, hands-on experience in key backend technologies, including Git, AWS, JavaScript, Express.js, Node.js, and MySQL.

Workshop Proceedings

Day 1: April 15th, 2024

The first day of the workshop focused on introducing participants to Git and GitHub, fundamental tools for version control and collaborative software development. The session, which started at 9:30 AM, was led by an experienced mentor who guided the participants through the process of setting up Git, managing repositories, and collaborating on projects using GitHub. The afternoon session introduced participants to Amazon Web Services (AWS), where they learned about cloud computing and its significance in backend development.

Day 2: April 16th, 2024

The second day delved into JavaScript fundamentals and their applications in backend development. Participants engaged in interactive sessions where they learned how to write efficient JavaScript code, handle asynchronous operations, and manipulate data structures. The afternoon session introduced Express.js, a popular web application framework for Node.js, where participants learned how to build and deploy web applications quickly and efficiently.

Day 3: April 18th, 2024

The final day of the workshop focused on Node.js and MySQL. The morning session provided an in-depth look at Node.js, a powerful JavaScript runtime environment that allows developers to execute JavaScript code outside of a browser. Participants learned how to create server-side applications, manage packages using npm, and build RESTful APIs. The afternoon session introduced MySQL, where participants learned about database management, SQL queries, and how to integrate MySQL with Node.js to build robust backend systems.

Key Outcomes

Practical Skills Development: Participants gained hands-on experience with essential backend technologies, including Git, AWS, JavaScript, Express.js, Node.js, and MySQL.

Certification: Attendees who completed the workshop received a certification in Amazon Web Services (AWS), showcasing their proficiency in cloud computing technologies, which will be valuable for their professional growth.

Networking and Collaboration: The workshop provided an opportunity for participants to network with peers and mentors, fostering a collaborative learning environment and building connections that could lead to future collaborations.

Conclusion

The three-day Backend Development Workshop organized by CIIE was a tremendous success, providing participants with valuable skills and knowledge that will aid them in their future careers as backend developers. Through a combination of theoretical instruction and practical application, participants were able to gain a deep understanding of backend technologies and how they are applied in real-world scenarios. The workshop not only enhanced their technical competencies but also instilled confidence in their ability to tackle complex backend development projects.

Acknowledgments

We extend our sincere gratitude to the mentors, faculty members, and administrative staff of SRM University, Delhi-NCR, for their support in organizing this workshop. Their dedication to fostering innovation and skill development among students is greatly appreciated.

CIIE SRMUH <ciie@srmuniversity.ac.in>

Mon, Apr 15, 2024 at 8:22 PM

To: CIIE SRMUH <ciie@srmuniversity.ac.in>, "Dr. Mahamad Ahamad Mohiddon" <mahamad.ahamad@srmuniversity.ac.in>

Join at CIIE's Backend Workshop! 🎉

Are you ready to dive into the exciting world of backend development? The Center for Innovation Incubation and Entrepreneurship (CIIE) is thrilled to announce a comprehensive three-day workshop designed to equip you with essential skills and knowledge in backend technologies. Whether you're a seasoned developer looking to expand your expertise or a newcomer eager to explore the backend realm, this workshop is perfect for you!

Workshop Overview:

Date: 15, 16, 18 April

Time: 9:30 am to 4:00 pm

What You'll Learn:

Git and GitHub
Introduction to AWS
JavaScript Fundamentals
Express JS
Node JS
MySQL

Certification:

Upon completion of the workshop, attendees will receive a certification in Amazon Web Services (AWS), showcasing their proficiency in cloud computing technologies.

Why Attend?

Hands-on Learning: Engage in practical, hands-on sessions guided by CIIE mentors.

Take advantage of this opportunity to level up your backend development skills! Reserve your spot now and embark on a journey of learning and growth with CIIE. See you at the workshop!

Registration Link:

Report Event

REPORT ON PYTHON FUNDAMENTAL WORKSHOP 2024

EVENT OVERVIEW:

The Python Fundamental Workshop 2024 was successfully conducted from 3rd April 2024 to 5th April 2024 under the auspices of the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat. The workshop was designed to provide students with a solid foundation in Python programming, a critical skill in today's technology-driven world. The event was aimed at both beginners and those with some prior experience in coding, focusing on enhancing their programming abilities and problem-solving skills.

REGISTRATION AND SELECTION PROCES:

Registrations for the workshop were conducted online via a Google form, which was circulated among the student community. The response was highly encouraging, with over 70 students registering for the event. To ensure a focused and effective learning environment, a selection process was implemented. Out of the 70+ registrants, 40 students were selected based on their previous experience and interest in programming. This selection ensured that participants had a basic understanding of coding, allowing the workshop to delve deeper into Python's capabilities.

EVENT STRUCTURE:

- **Day 1:** The workshop commenced with an introduction to Python, covering fundamental concepts such as data types, variables, and control structures. The CIIE core team members, who served as mentors for the event, led the sessions. The day concluded with hands-on coding exercises to reinforce the concepts learned.
- **Day 2:** The second day focused on more advanced topics, including functions, modules, and error handling. Students were encouraged to write small programs to solve specific problems, fostering a practical understanding of the language. The interactive nature of the sessions kept the participants engaged and facilitated active learning.
- **Day 3:** The final day was dedicated to working on small projects, allowing students to apply the knowledge they had gained over the previous two days. Mentors provided guidance and support as students developed their projects, which were then presented to the group.

COMPETITION AND AWARDS:

At the end of the workshop, students were asked to present their projects. These presentations were evaluated based on creativity, code efficiency, and the practical application of Python concepts. The top projects were recognized, and the winners were awarded goodies as a token of appreciation. This competitive element not only motivated the students to excel but also provided them with an opportunity to gain recognition for their efforts.

STUDENT FEEDBACK AND OUTCOMES:

The workshop received positive feedback from the participants, who appreciated the hands-on approach and the guidance provided by the CIIE mentors. The structured progression from basic to advanced topics, coupled with practical project work, helped students solidify their understanding of Python. The competition at the end of the workshop added excitement and provided a platform for students to showcase their skills.

CONCLUSION:

The Python Fundamental Workshop 2024 was a highly successful event, meeting its objectives of enhancing students' programming skills and encouraging practical application of knowledge. The workshop not only equipped students with essential coding skills but also fostered a collaborative and innovative spirit among the participants. The positive response from students indicates a strong interest in further such initiatives.

Dear Sir

CIIE is going to organize a three days workshop on Python Fundamentals from 3rd April to 5th April 2024. An advertisement poster is attached along with this email. In such short notice also a total of 244 students have registered for this workshop. The registered students information is attached with this mail. Out of this large number 70 plus students were selected and the event is scheduled from today.

Yesterday I gave information for the requirement of the venue to the registrar sir, and got verbal approval. The workshop is planned at the 5th floor conference hall for these three days.

I request you to please give access for the same.

Date: 3rd April 2024 (Wednesday), 4th April 2024 (Thursday) and 5th April 2024 (Friday)

Time: 9:30AM to 4:30 PM

Thanking you

with regards

REPORT ON THE UI/UX WORKSHOP EVENT

EVENT OVERVIEW:

The UI/UX Workshop was successfully conducted on the 27th and 28th of March 2024 at SRM University Delhi-NCR, Sonapat. This two-day event focused on providing students with a deep understanding of User Interface (UI) and User Experience (UX) design principles. The workshop was designed to cater to both beginners and those with some prior experience in the field, aiming to enhance their design thinking and technical skills.

REGISTRATION AND SELECTION PROCESS:

The registration process for the event was conducted online through a Google Form. The response was overwhelming, with over 100 students expressing their interest in participating. Due to limited seating and to maintain a high-quality, focused learning environment, a selection process was implemented. Out of the 100+ registrants, 50 students were carefully selected based on their responses in the registration form, prior experience, and demonstrated interest in UI/UX design.

EVENT STRUCTURE:

Day 1: The first day of the workshop focused on the fundamentals of UI/UX design. Students were introduced to the basics of design thinking, user research, wireframing, and prototyping. Interactive sessions allowed students to engage with the material actively, with hands-on exercises designed to reinforce the concepts taught.

Day 2: The second day built upon the knowledge gained on the first day, moving into more advanced topics such as usability testing, interface design, and interaction design. Students were encouraged to work on mini-projects, applying what they had learned to create user-friendly and aesthetically pleasing designs.

COMPETITION AND AWARDS:

At the end of the second day, a competition was held where students presented their UI/UX projects developed during the workshop. The projects were judged based on creativity, usability, and overall design execution. The competition added a competitive edge to the workshop, motivating students to put their best foot forward.

The winners of the competition were awarded with goodies as a token of appreciation for their outstanding work. These awards not only recognized their efforts but also encouraged them to continue honing their skills in UI/UX design.

STUDENT FEEDBACK AND OUTCOMES:

The feedback from participants was highly positive. Students appreciated the structured approach of the workshop, the interactive nature of the sessions, and the opportunity to apply theoretical knowledge in practical scenarios. The competition, in particular, was well-received, as it provided a platform for students to showcase their talents and gain recognition.

CONCLUSION:

The UI/UX Workshop was a resounding success, achieving its objective of enhancing students' skills in UI/UX design. The event not only provided valuable learning experiences but also fostered a spirit of creativity and innovation among the participants. Moving forward, we plan to organize more such events, building on the momentum generated by this workshop to further strengthen the design capabilities of our students.

Dear students

CIIE is excited to announce UI/UX Workshop on March 27th & 28th, 2024! It's designed for all, with no prior experience needed. Dive into the world of UI/UX design through sessions and hands-on practice. Hurry, register by March 26th, 5 PM *to secure your spot. *Successful candidates will be notified via email. Don't miss this unique opportunity to boost your skills!

Important Notes:

1. No entry without registering: To ensure a smooth workshop experience, entry will only be permitted to those who have registered in advance. Be sure to secure your spot by registering using the link below.
2. On-site attendance mandatory: Attendance on both days, from starting time to end time, is mandatory for all participants. This ensures maximum benefit from the workshop sessions and activities.

Registration Link: <https://forms.gle/FEWX8VXY3iidaRe17>

Report on the Startup Mahakumbh Visit 2024

Event Overview:

The Startup Mahakumbh 2024 was held from 18th March 2024 to 20th March 2024 at Bharat Mandapam, New Delhi. This event, known as one of India's premier gatherings for startups, entrepreneurs, and investors, was a significant opportunity for students from SRM University Delhi-NCR, Sonapat. A delegation of over 70 students from our campus attended the event, gaining exposure to cutting-edge innovations and networking with industry leaders.

Key Highlights:

Focus Areas: The event showcased startups across various domains, including AI + SaaS (artificial intelligence + Software as a Service), D2C (Direct to Consumer)/consumer brands, agri-tech, and fintech. A notable addition this year was the introduction of a dedicated pavilion for B2B (Business to Business) manufacturing, marking a significant milestone as the first of its kind in India.

Engagement with Angel Investors: Our students had the unique opportunity to interact with angel investors, gaining insights into their expectations and learning about the critical factors that influence investment decisions.

Workshops, Talks, and Panels:

The event featured talks and panel discussions by esteemed speakers, including:

Amitabh Kant: Former CEO of NITI Aayog, known for his work in transforming India's policy landscape.

Sivasubramanian Ramann: Chairman of SIDBI, who shared insights into fostering small and medium enterprises.

Falguni Nayar: Founder of Nykaa, who spoke about scaling D2C brands in India.

Sridhar Vembu: CEO of Zoho Corporation, who discussed the role of technology in empowering small businesses.

Prashanth Prakash: Founding partner of Accel India, who highlighted the future of venture capital in India.

Sanjeev Bikchandani: Founder of Info Edge, who shared his journey and the importance of perseverance in entrepreneurship.

Student Feedback and Outcomes:

The feedback from students was overwhelmingly positive. They expressed their satisfaction with the level of engagement and the learning opportunities provided by the event.

Objectives and Achievements:

The primary objective of participating in Startup Mahakumbh 2024 was to nurture the entrepreneurial spirit among our students. By exposing them to real-world startup ecosystems and providing opportunities for direct interaction with industry leaders and investors, we aimed to inspire and equip them with the knowledge and networks necessary to pursue their

entrepreneurial ambitions. The event successfully met these objectives, with students returning motivated and better prepared to embark on their entrepreneurial journeys.

Conclusion:

The visit to Startup Mahakumbh 2024 was a resounding success. The exposure to innovative startups, the interactions with seasoned entrepreneurs and investors, and the potential opportunities for mentorship and collaboration have significantly contributed to the entrepreneurial development of our students. Moving forward, we plan to leverage these experiences to further enhance the entrepreneurial ecosystem at SRM University Delhi-NCR, Sonapat.

Attendance of students at Startup Mahakumbh held at Bharat Mandapam, New Delhi.

Dear class/subject teachers

Center for Innovation, Incubation and entrepreneurship (CIIE) has organized two day visit to Startup- Mahakumbh held at Bharat Mandapam, Pragati Maidan, New Delhi on 18th and 19th March 2024. This visit was organized with permission from competent authority. Following students took part in the visit on the first day i.e. 18th March 2024. All class / subject teachers are requested to provide attendance for the same.

SRM Builds 4.0 Hackathon

Event Overview

The SRM Builds 4.0 hackathon, held on December 9th and 10th, 2023, was a dynamic and vibrant event organized by the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat. This hackathon was open to all students from various universities/colleges from diverse specialisation. This two-day event was more than just a competition; it was a celebration of innovation, creativity, and community spirit, bringing together students from various disciplines to collaborate and create solutions for real-world challenges.

Participation and Tracks

The hackathon attracted a diverse group of students eager to push the boundaries of technology and innovation. Participants worked in teams to develop projects across several exciting tracks:

Web3:

Teams explored the next generation of the internet, working on decentralized applications and blockchain solutions.

Blockchain:

Projects in this track focused on leveraging blockchain technology for various applications, from financial services to supply chain management.

Open Innovation:

This track encouraged participants to think outside the box, creating solutions that could disrupt traditional industries or address unmet needs.

Social Good:

Teams in this track aimed to develop technology solutions that could make a positive impact on society, addressing issues like education, healthcare, and environmental sustainability.

Fintech:

Participants worked on innovative financial technology solutions, from digital banking to payment systems and beyond.

Edtech:

This track focused on educational technology, with teams creating tools and platforms to enhance learning experiences.

AR/VR:

Teams dived into the immersive world of augmented and virtual reality, developing projects that could redefine how we interact with digital environments.

Hackathon Experience

Beyond the coding and problem-solving, SRM Builds 4.0 was packed with engaging activities designed to keep the energy high and the creativity flowing:

Games and Jamming Sessions:

Participants took breaks from intense coding sessions to unwind with games and music, fostering a fun and relaxed atmosphere.

Meme-It-Up Fun:

A light hearted meme competition added humor to the event, allowing participants to showcase their creativity in a different way.

Quizzes:

Tech-related quizzes tested participants' knowledge and offered a fun way to learn more about the topics at hand.

Community and Collaboration

The success of SRM Builds 4.0 was a testament to the spirit of collaboration and innovation within the university community. The event brought together not only the participants but also faculty members, mentors, and supporters who played crucial roles in guiding the teams and ensuring the hackathon ran smoothly.

The support from the university community was overwhelming, with students and faculty alike showing enthusiasm for the event's goals and activities. This collective energy and belief in the power of innovation made SRM Builds 4.0 a memorable and impactful experience for everyone involved.

Conclusion

SRM Builds 4.0 was more than just a hackathon—it was a celebration of technology, creativity, and community. The event successfully provided students with a platform to showcase their skills, collaborate on ground breaking projects, and engage in a variety of fun and educational activities.

As the coordinator of CIIE, I am proud of the way our students and community came together to make this event a success. The hackathon not only highlighted the innovative potential of our students but also reinforced the strong sense of community at SRM University Delhi-NCR, Sonapat.

The poster for the Hackathon SRM Builds 4.0 features a dark blue background with a grid pattern. At the top, logos for the Institution's Innovation Council, Ministry of Education's Innovation Cell, CIIE, and SRM University are displayed. The main title 'HACKATHON SRM Builds 4.0' is prominently shown, with 'Builds 4.0' in a large, green, pixelated font. Below the title, the tagline 'Learn, Build and Hack the TECH' is written. A QR code is provided for registration, with the text 'SCAN THE QR CODE' and 'REGISTER NOW!!!'. A yellow school bus icon is accompanied by the text 'Transport Facilities will be Provided'. A blue box on the right contains event details: '9th - 10th Dec 2023', '36 Hours Hackathon', and 'SRM University, Sonapat'. At the bottom, the text 'Our proud Sponsors' is followed by logos for Devfolio, replit, polygon, commudle, and others.

Inauguration of SRM Builds 4.0 by Honorable Vice Chancellor Prof. Paramjit Jaswal

Falicitation of the guest speakers by Honorable Vice Chancellor Prof. Paramjit Jaswal along with Director Administration Mr. Manoj Madhavan Kutty.

Inagural Ceremony of SRM Builds 4.0

Hackathon progress SRM Builds 4.0

Appreciations to the winner by Dean Engineering Prof. Ranjeet Rai.

CENTER FOR INNOVATION INCUBATION AND ENTREPRENEURSHIP

Ref. No. SRMUH/CIIE/2023/75

Date: 28.11.2023

NOTE
Sub: Proposal for organizing the open hackathon SRM Builds 4.0 at the campus.

Center for Innovation Incubation and Entrepreneurship (CIIE) is planning to conduct an open hackathon with title "SRM Builds 4.0" to inculcate the competitive spirit among the students. This hackathon will be conducted in collaboration with the twenty plus tech communities including Google Developer Groups New Delhi, GDG Noida, Commudle, GDSC and MLSA of Delhi NCR region, Devfolio and Hack the Unicorn. Judges are invited from Paytm, One communication, Razorpay and Morgan Stanley. It is also proposed to invite a tech speaker from Airtel, Dot-Net etc. during the hackathon to share their tech experience. This hackathon will be open for all the enthusiastic participants from all regions. The above mentioned tech communities will advertise for the registration and approximately one thousand registrations are expected. Out of which, 250 participants will be shortlisted based on their portfolio. This will be a 36hrs hackathon, where students will stay two days and one night at the campus, working on the different problem statements of the hackathon. The goal of the hackathon is social upliftment through different themes and encouraging emerging startups. Hackathon is planned for a maximum of 200 participants. The tentative dates for the hackathon are 9th and 10th Dec 2023. The approximate budget for conducting the same will be Rs. 1,00,000/- (in advance). An approximate amount of Rs.40,000 is expected from sponsors like Hack the Unicorn, Postman etc. The splitting of the budget details is as follows. For successful conduction of the event, there is requirement of IT support (2 members), Power grid support (One member), security guard (4 members), cleaning staff (2 members), whole EB block, auditorium and Old Canteen for food during this event. Further, there is a requirement of transport facility (five) from Majlis Park Metro station, Jahangir Puri metro station and Janakpuri west metro station. Also required Banners and Posters printing, stationaries for conference kit arrangement.

1. Food (1 dinner+ 1 breakfast) for 250 members	- 40,000
2. Goodies for the winners and runners of different events	- 20,000
3. Refreshments for Judges and Mentors	- 10,000
4. Miscellaneous	- 10,000
5. Sponsor booth	- 10000
6. Speakers and Judges transportation (6 × 2 × 1200)	- 14,400
7. Sponsor Merch customization (25)	- 10,000

Total = 1,14,000

With these initial ideas, a proposal is put forward to your kind consideration.

A report on Internal Hackathon conducted for Smart India Hackathon 2023 Participation

The Smart India Hackathon 2023 Internal Hackathon was conducted on September 23rd, 2023, with the aim of fostering innovation, problem-solving, and collaboration among talented teams of students. This internal hackathon served as a prelude to the national-level Smart India Hackathon 2023 and provided an opportunity for participants to showcase their skills and innovative ideas.

Event Structure

Ideation Phase

- Participants were given 10 hours to discuss and strategize with their respective teams on how to approach and solve the chosen problem.
- This phase encouraged creative thinking, collaboration, and critical analysis of the problem statements.

Presentation Day

- Following the hackathon, a presentation day was organized for teams to showcase their proposed solutions.
- Each team was expected to present their ideas and discuss how their solutions would address the selected problem.
- Teams were allowed to present more than two problem-statement solutions, showcasing their versatility and adaptability.

Hackathon Date: September 23rd, 2023

Evaluation Dates: September 25th and 27th, 2023

Total Number of Participating Teams: 35

Number of Shortlisted Teams: 25

Problem Statements:

The hackathon featured three distinct problem statements, allowing participants to choose and work on the one that best aligned with their skills and interests. The problem statements were as follows:

Problem Statement 1: Develop an app for identifying of medical plants/detection of disease in the crop etc.

Problem Statement 2: Web or app for awareness towards disaster management / children rights / E-waste management.

Problem Statement 3: Build a Digital Health Monitoring Solution for remote patient monitoring and timely medical intervention.

Hackathon Highlights

Hackathon Day (September 23rd, 2023)

The internal hackathon was conducted with enthusiasm and fervor. Participants, comprising students from different departments, were given 10 hours to brainstorm, prototype, and develop solutions to the chosen problem statements. The event was organized as follows:

Inauguration and Problem Statement Disclosure: The event started with an inauguration ceremony, where the problem statements were unveiled, and participants received detailed instructions.

Hackathon Commencement: Teams immediately began brainstorming and strategizing, using the resources and guidance provided by mentors and organizers.

Mentorship and Support: Mentors were available throughout the hackathon to provide technical guidance and assistance. This ensured that participants had access to expert advice and could overcome challenges effectively.

Evaluation Days (September 25th and 27th, 2023)

Judging Panel

- A panel of six college faculty members, with expertise in various domains, was selected to judge the ideas presented by the student teams.
- The judging team was responsible for evaluating the quality and innovation of the proposed solutions.
 1. Dr. Prakash Kuppurswamy, Professor, Computer Science department
 2. Dr. M. Mohan, Associate Professor, Computer Science department
 3. Dr. Seema Kharb, Associate Professor, Computer Science department
 4. Dr. Dilshant Ansari, Associate Professor, Computer Science department
 5. Dr. R. Shankar, Associate Professor & Head, Mechanical Engineering
 6. Dr. Anand Gaurav, Assistant Professor, Mechanical Engineering department
 7. Dr. Md Ahamad, Associate Professor & Head, Physics department

The evaluation process was designed to be rigorous and impartial. A panel of judges, comprising subject matter experts and industry professionals, assessed the shortlisted teams based on the following criteria:

- **Creativity / Innovation:** The uniqueness and novelty of the solution presented.
- **Design Principle / Design method**
- **Functionality:** The extent to which the solution effectively addressed the chosen problem statement.
- **Usability:** How user-friendly and practical the solution was.
- **Scalability:** The potential for the solution to be scaled up or adapted for wider use.
- **Technical Proficiency / Scope of work:** The quality of the technical implementation and use of advanced technologies.
- **Discussion & Presentation**

Final Evaluation

- After the initial individual evaluations, the judging team conducted a final evaluation to determine which teams would proceed to the next stage of the Smart India Hackathon.
- This evaluation took into account the cumulative scores awarded to each team and their potential to excel in the national-level competition.

Conclusion

The Smart India Hackathon 2023 Internal Hackathon was a resounding success, showcasing the immense talent, creativity, and problem-solving capabilities of the participating teams. The event not only provided a platform for innovation but also fostered collaboration and learning among students.

We extend our congratulations to all the participants, winners, and everyone involved in making this hackathon a memorable and fruitful experience. The solutions developed during this event have the potential to bring about positive changes in various domains, from traffic management to healthcare, and contribute to the advancement of the nation.

We look forward to seeing these innovative solutions in action and eagerly anticipate the national-level Smart India Hackathon 2023, where these teams will have the opportunity to represent their institutions and compete on a larger stage.

Thank you to all the participants, mentors, judges, and organizers for their dedication and hard work in making this event a grand success.

Invitation to Judge the SIH 2023 Internal Hackathon-reg.

1 message

CIIE SRMUH <ciie@srmuniversity.ac.in>

Fri, Sep 22, 2023 at 11:57 PM

To: "Dr. M. Mohan" <m.mohan@srmuniversity.ac.in>, Dr Seema Kharb <seema.kharb@srmuniversity.ac.in>, "Dr.Mohd Dilshad Ahmad Ansari" <mohddilshadcse@srmuniversity.ac.in>, prakash k <prakash.k@srmuniversity.ac.in>

Cc: Dean Academics <deanacademic@srmuniversity.ac.in>, "Prof K. S. Narayan" <ks.narayan@srmuniversity.ac.in>, Dean Engineering SRMUH <deanengineering@srmuniversity.ac.in>, HOD CSE <hod.cse@srmuniversity.ac.in>

Dear Sir/Madam

Following our telephonic discussion about your availability tomorrow, here I would like to extend my warm invitation for evaluating the projects going to be presented in the SIH2023 internal hackathon

Here are the details of the SIH 2023 Internal Hackathon:

Date: 23.09.2023

Time: Hackathon duration: 10AM - 4:30PM

Location: Room number G4, 301, 302, 303, Engineering Block

Presentation time: 2PM onwards

As a judge, your role would involve:

Evaluating project presentations and prototypes.

Providing constructive feedback to the participating teams.

Collaborating with fellow judges to select the winning teams.

Contributing to the overall success and smooth operation of the event.

Thank you for considering our invitation, and we genuinely hope you can join us in making this SIH2023 Internal Hackathon a resounding success. Your presence would mean a lot to us, and we are looking forward to your positive response.

Warm regards,

Dr. Md Ahamad Mohiddon

Convener, CIIE

Call for the participation for Smart India Hackathon 2023

CIIE SRMUH <ciie@srmuniversity.ac.in>
To: Everyone <everyone@srmuniversity.ac.in>

Wed, Aug 30, 2023 at 5:09 PM

Dear All,

Greetings of the day.

We are excited to inform you about a fantastic opportunity for our students to showcase their problem-solving skills on a national level. The Ministry of Education, Government of India, has officially announced the launch of **Smart India Hackathon 2023**, and we encourage your active participation and support in this endeavor.

Smart India Hackathon is a prestigious event that brings together the brightest minds from across the country to collaboratively solve real-world challenges faced by various industries. The hackathon provides an ideal platform for students to put their innovative thinking and technical prowess to the test, creating innovative solutions that have the potential to transform our nation.

To explore the problem statements and learn more about the event, please visit the official website: <https://sih.gov.in/>.

We encourage all faculty members to spread the word among students and inspire them to participate actively. As esteemed members of our faculty, you have the chance to play a pivotal role in guiding and mentoring the participating student teams. Your experience and expertise can significantly contribute to the success of these teams and the innovative solutions they develop. **We invite faculty members to consider standing as mentors for interested student teams.**

To ensure the successful planning and execution of Smart India Hackathon 2023, the Center for Innovation, Incubation and Entrepreneurship (CIIE) is going to organize an interactive session. This session aims to provide interested students and student teams with a platform to discuss and plan their approach for the hackathon.

Ask the students to register at <https://forms.gle/GnGSrDE1yzehAu3v5>.

Thank you for your attention and support. Should you have any questions or require further information, please feel free to reach out.

Thanks and Regards

List of Themes:

SMART AUTOMATION

Ideas focused on the intelligent use of resources for transforming and advancements of technology with combining the artificial intelligence to explore more various sources and get valuable insights.

FITNESS & SPORTS

Ideas that can boost fitness activities and assist in keeping fit.

HERITAGE & CULTURE

Ideas that showcase the rich cultural heritage and traditions of India.

MEDTECH/BIOTECH/ HEALTHTECH

Cutting-edge technology in these sectors continues to be in demand. Recent shifts in healthcare trends, growing populations also present an array of opportunities for innovation.

AGRICULTURE, FOODTECH & RURAL DEVELOPMENT

Developing solutions, keeping in mind the need to enhance the primary sector of India - Agriculture and to manage and process our agriculture produce.

SMART VEHICLES

Creating intelligent devices to improve commutation sector.

TRANSPORTATION & LOGISTICS

Submit your ideas to address the growing pressures on the city's resources, transport networks, and logistic infrastructure.

ROBOTICS AND DRONES

There is a need to design drones and robots that can solve some of the pressing challenges of India such as handling medical emergencies, search and rescue operations, etc.

CLEAN & GREEN TECHNOLOGY

Solutions could be in the form of waste segregation, disposal, and improve sanitization system.

TOURISM

A solution/idea that can boost the current situation of the tourism industries including hotels, travel and others.

RENEWABLE/ SUSTAINABLE ENERGY

Innovative ideas that help manage and generate renewable /sustainable sources more efficiently.

BLOCKCHAIN & CYBERSECURITY

Provide ideas in a decentralized and distributed ledger technology used to store digital information that powers cryptocurrencies and NFTs and can radically change multiple sectors.

SMART EDUCATION

Smart education, a concept that describes learning in digital age. It enables learners to learn more effectively, efficiently, flexibly and comfortably.

DISASTER MANAGEMENT

Disaster management includes ideas related to risk mitigation, Planning and management before, after or during a disaster.

TOYS

Challenge your creative mind to conceptualize and develop unique toys and games based on our civilization, history, and culture etc.

MISCELLANEOUS

Technology ideas in tertiary sectors like Hospitality, Financial Services, Entertainment and Retail.

Dear All

Please forward this poster to all student's groups and encourage them to take part in the SIH 2023.

Dear Students

The Ministry of Education, Government of India has called for **Smart India Hackathon 2023**. The problem statements are open, please visit <https://sih.gov.in/>. Students are encouraged to participate in this reputed national level problem solving hackathon. The basic introduction of the SIH2023 is given below. All students are encouraged to go through the problem statements and take part in the SIH 2023.

In this regard, CIIE has planned to have interaction with interested students/student teams to plan for the progress of the SIH 2023.

You are all requested to register in the following google form.
<https://forms.gle/GnGSrDE1yzehAu3v5>

Thanks and regards

What is SIH 2023:

Smart India Hackathon 2023 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving. Smart India Hackathon 2023 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving.

Dear All

Greetings of the Day

The last date for the team nomination and idea submission for Smart India Hackathon has been extended to 10th Oct 2023. Please visit the following SIH2023 portal. <https://sih.gov.in/>

Every university can nominate 30 student's teams for participation in this national level hackathon. We have communicated with students multiple times and a maximum of 14 teams were interested to participate. And in the internal evaluation (by six faculty members team) we observed that six teams do have reasonably good problem solutions.

I request all the teaching fraternity to pick the sharp and brilliant students of each class and give direction to come forward with a good problem statement to be presented at the national level hackathon. This will bring identity to our campus at a national level platform. A teacher can be a mentor for the student's team.

Last year in SIH2022 out of 17 nominated teams from our university, only one team got selected for competition.

Further, all 14 teams who submitted ideas in this year are from B.Tech and BCA. The problem statements given in SIH 2023 covers all subjects. I have added a few problem statements for your references. **I request all faculties, please encourage the students to take part in SIH 2023 to present our university at a national level.**

1. Development of e-Portal for facilitating Case Management Hearing of various types of cases
2. Development of gamified platform on Children's Rights to increase legal literacy and awareness among children in India
3. Development of business models for collection and utilization of single use plastics and various other industrial wastes
4. Green options for milk packaging
5. Domestic Waste Management
6. Application for Assessment of Quality of Textbook/ Reference Books/ E- Book

All statements are available at

https://sih.gov.in/sih2023PS?technology_bucket=NQ==&category=QWxs&organization=QWxs&organization_type=QWxs

Thanks and regards

Idea submission for Smart India Hackathon is extended to 10th Oct 2023

Dear Students

The Ministry of Education, Government of India has called for **Smart India Hackathon 2023**. The problem statements are open, please visit <https://sih.gov.in/>. Students are encouraged to participate in this reputed national level problem solving hackathon. The basic introduction of the SIH2023 is given below. All students are encouraged to go through the problem statements and take part in the SIH 2023.

In this regard, CIIE has planned to have interaction with interested students/student teams to plan for the progress of the SIH 2023.

You are all requested to register in the following google form.
<https://forms.gle/GnGSrDE1yzehAu3v5>

Thanks and regards

What is SIH 2023:

Smart India Hackathon 2023 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving. Smart India Hackathon 2023 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving.

List of Themes:

SMART AUTOMATION

Ideas focused on the intelligent use of resources for transforming and advancements of technology with combining the artificial intelligence to explore more various sources and get valuable insights.

FITNESS & SPORTS

Ideas that can boost fitness activities and assist in keeping fit.

HERITAGE & CULTURE

Ideas that showcase the rich cultural heritage and traditions of India.

MEDTECH/BIOTECH/ HEALTHTECH

Cutting-edge technology in these sectors continues to be in demand. Recent shifts in healthcare trends, growing populations also present an array of opportunities for innovation.

AGRICULTURE, FOODTECH & RURAL DEVELOPMENT

Developing solutions, keeping in mind the need to enhance the primary sector of India - Agriculture and to manage and process our agriculture produce.

SMART VEHICLES

Creating intelligent devices to improve commutation sector.

TRANSPORTATION & LOGISTICS

Submit your ideas to address the growing pressures on the city's resources, transport networks, and logistic infrastructure.

ROBOTICS AND DRONES

There is a need to design drones and robots that can solve some of the pressing challenges of India such as handling medical emergencies, search and rescue operations, etc.

CLEAN & GREEN TECHNOLOGY

Solutions could be in the form of waste segregation, disposal, and improve sanitization system.

TOURISM

A solution/idea that can boost the current situation of the tourism industries including hotels, travel and others.

RENEWABLE/ SUSTAINABLE ENERGY

Innovative ideas that help manage and generate renewable /sustainable sources more efficiently.

BLOCKCHAIN & CYBERSECURITY

Provide ideas in a decentralized and distributed ledger technology used to store digital information that powers cryptocurrencies and NFTs and can radically change multiple sectors.

SMART EDUCATION

Smart education, a concept that describes learning in digital age. It enables learners to learn more effectively, efficiently, flexibly and comfortably.

DISASTER MANAGEMENT

Disaster management includes ideas related to risk mitigation, Planning and management before, after or during a disaster.

TOYS

Challenge your creative mind to conceptualize and develop unique toys and games based on our civilization, history, and culture etc.

MISCELLANEOUS

Technology ideas in tertiary sectors like Hospitality, Financial Services, Entertainment and Retail.

Dear All,

I am thrilled to share some exciting news that highlights the exceptional talent and ingenuity present within our university community. **Three of our students teams have been selected to advance to the Grand Finale of the Smart India Hackathon 2023!**

Out of a staggering 44,000 participants from across the nation, our university has demonstrated its prowess, with three teams securing their positions among the top performers. This accomplishment is a testament to the caliber of our students and their ability to tackle real-world challenges with innovative solutions.

Here are some key details about the Smart India Hackathon 2023 selection process:

Participants: 44,000 applicants nationwide	Problem Statements: A total of 234 problem statements were assigned	Top Teams: The competition was intense, with the top 1,627 teams shortlisted	Teams Selected: Three teams from our university
--	--	---	--

It is a matter of immense pride that, among the top-performing teams, three hail from our university. This achievement underscores the dedication, hard work, and technical expertise of our students, reflecting positively on the quality of education and mentorship provided by our esteemed faculty.

Moreover, as part of the SRM fraternity, a total of eight teams have been selected for the Grand Finale. This includes three teams from the SRM-IST campus, three from our own campus, and one each from the AP and Vadapallani campuses. This diverse representation showcases the widespread talent within our institution.

I encourage each one of you to join me in congratulating the participating teams for reaching this significant milestone. Their success not only elevates our university's reputation but also highlights the impactful contributions our students are capable of making in the field of technology and innovation.

As we cheer on our teams in the Grand Finale, let us continue to support and nurture the spirit of innovation and excellence that defines our academic community.

Thank you for your continued dedication and contributions to the success of our students.

Special thanks and appreciations to the Judges of the SIH Internal Hackathon, whose feedback has resulted this achievement for our students.

Best regards,

Dear Sir,

Congratulations on the marvelous achievement. Further, Sir can you please help us understand in which category and exactly for the topics where we have been selected. Please edit the press notes so that it can be shared online with agencies.

SRM University Shines at Smart India Hackathon 2023, Sends Three Teams to Grand Finale

In a remarkable display of talent and innovation, SRM University has garnered attention by securing three coveted spots in the Grand Finale of the Smart India Hackathon 2023. This prestigious event, featuring 44,000 participants nationwide, witnessed the outstanding prowess of our university's students as they tackled real-world challenges with groundbreaking solutions.

The Smart India Hackathon 2023, a nation-wide initiative, presented participants with 234 problem statements, covering a diverse range of fields. Out of the extensive pool of applicants, the competition was intense, with only the top 1,627 teams earning the chance to advance to the Grand Finale. Remarkably, three teams from SRM University emerged among the selected few, reflecting the institution's commitment to fostering innovative thinking and problem-solving skills.

Key Statistics:

Participants: 44,000 applicants nationwide

Problem Statements: 234 challenges addressed

Top Teams: 1,627 teams shortlisted

SRM University Representation: Three teams in the Grand Finale

This achievement not only underscores the dedication and hard work of our students but also speaks volumes about the exceptional quality of education and mentorship provided by our esteemed faculty. The success of these teams is a testament to the university's commitment to nurturing talent and fostering an environment that encourages creative thinking.

Within the SRM fraternity, a total of eight teams have secured their positions in the Grand Finale. This includes three teams from the SRM-IST campus, three from SRMUH campus, and one each from the AP and Vadapallani campuses. This diverse representation showcases the widespread talent within our institution, highlighting the collaborative and inclusive nature of SRM University.

Quotes from University Officials:

Manoj Madhavan Kutty, Director

"We are thrilled to see our students shine on a national platform. This accomplishment reflects not only their technical expertise but also their ability to apply knowledge to real-world challenges. We are immensely proud of their achievements."

Prof. Dr Ahmed

"The success of our teams in the Smart India Hackathon is a testament to the quality of education and the culture of innovation that defines SRM University. We extend our congratulations to the participating teams and express gratitude to the faculty and judges who played a crucial role in their success."

Encouragement for Future Endeavors:

As the SRM University community celebrates this achievement, there is a collective call for continued support and encouragement for the participating teams in the upcoming Grand Finale. The university remains dedicated to fostering a spirit of innovation and excellence among its students, empowering them to make meaningful contributions to the field of technology.

Acknowledgments:

The university extends special thanks and appreciation to the judges of the SIH Internal Hackathon, whose invaluable feedback played a pivotal role in preparing the teams for success at the national level.

As SRM University eagerly anticipates the Grand Finale, the entire academic community joins in congratulating the participating teams and looks forward to witnessing the impact of their innovative solutions on the national stage.

Cybersecurity Workshop Organized by CIIE

Event Overview

On November 10th, 2023, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, organized a comprehensive workshop on cybersecurity. This workshop was designed to equip participants with essential skills and knowledge to navigate the increasingly complex landscape of cyber threats.

Participation

The workshop saw the enthusiastic participation of 30 individuals from different branches of B.Tech. Their active involvement and eagerness to learn about cybersecurity underscored the importance of this topic in today's digital age.

Workshop Content

The workshop covered a range of topics critical to cybersecurity:

Introduction to Cybersecurity:

Basic concepts and importance of cybersecurity.

Understanding the current threat landscape.

Cyber Threats and Attacks:

Types of cyber threats such as phishing, malware, ransomware, etc.

Real-world case studies of cyber-attacks.

Defensive Techniques:

Basics of encryption and secure communication.

Introduction to firewalls, intrusion detection systems, and antivirus software.

Best practices for personal and organizational cybersecurity.

Hands-on Sessions:

Participants engaged in practical sessions where they learned to identify and respond to cyber threats.

Simulations of cyber-attacks were conducted, providing a real-time experience of managing cybersecurity incidents.

Expert Talks:

Industry experts shared insights on emerging trends in cybersecurity.

Discussion on career opportunities in the field of cybersecurity.

Feedback and Outcomes

The workshop received positive feedback from the participants, who appreciated the depth and practical nature of the sessions. Many highlighted the hands-on experience as particularly beneficial, enabling them to apply the concepts learned in real-world scenarios.

Participants also expressed interest in further training sessions and advanced workshops on cybersecurity, indicating the workshop's success in igniting curiosity and a desire for deeper knowledge.

Conclusion

The Cybersecurity Workshop organized by CIIE on November 10th, 2023, was a resounding success, achieving its objectives of raising awareness and imparting practical cybersecurity skills. The active participation and positive feedback from attendees highlight the workshop's impact and the growing importance of cybersecurity education. CIIE remains committed to organizing similar events in the future, fostering a culture of innovation, learning, and preparedness in the face of evolving digital challenges.

CIIE - Community Form

Hey everyone,

We are thrilled to announce that we will be launching specific communities based on your interests. You have the opportunity to choose the community that aligns best with your passion and career goals. Please take a moment to complete this form and let us know which areas of technology and innovation interest you the most and **JOIN THE CIIE**

Communities of Interest:

1. Software Development

- DSA (Data Structures and Algorithms)(C , C++ , JAVA , PYTHON , etc.)
- Web Development
- App Development
- UI/UX Design

2. Software Engineering

- Software Architecture
- DevOps

3. Cybersecurity

4. IoT (Internet of Things)

5. AI (Artificial Intelligence) and ML (Machine Learning)

6. Game Development

Your participation in this survey will enable us to curate content and events that resonate with your passions and career goals. Whether you're a seasoned expert or just starting to explore these fields, your insights matter to us.

Warm regards,
CIIE SRMUH Team

ahamed.vza@gmail.com [Switch account](#)

The name, email, and photo associated with your Google account will be recorded when you upload files and submit this form

CIIE is launching specialized communities on Software Development, Software Engineering, Cyber security, IoT, AIML and Game Development

1 message

CIIE SRMUH <ciie@srmuniversity.ac.in>

Mon, Oct 23, 2023 at 6:32 AM

To: everyone@stu.srmuniversity.ac.in

Dear Students

Exciting news! 🚀

CIIE is launching specialized communities within CIIE SRMUH based on your interests, and you have the chance to shape your CIIE experience! ✨

🔍 **Explore your passions and career goals by choosing the community that aligns best with your interests:**

👨‍💻 **Software Development**

- DSA (Data Structures and Algorithms)
 - Web Development
 - App Development
 - UI/UX Design
- (Languages: C, C++, JAVA, PYTHON, etc.)

🔧 **Software Engineering**

- Software Architecture
- DevOps

🛡️ **Cybersecurity**

🌐 **IoT (Internet of Things)**

🤖 **AI (Artificial Intelligence) and ML (Machine Learning)**

🎮 **Game Development**

Join the CIIE community now and share your interests by filling out the form using this link: [<https://forms.gle/cjYedagWkhkfBEd97>]

Let's make your CIIE experience extraordinary! 🚀

**Warm regards,
CIIE SRMUH Team**

API Workshop Organized by CIIE in Collaboration with POSTMAN

Event Overview

On November 2nd, 2024, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, in collaboration with POSTMAN, organized an insightful workshop on Application Programming Interfaces (APIs). The workshop was held in the university auditorium located in the Law Block, providing an ideal setting for both interactive discussions and practical demonstrations.

Participation

The event garnered significant interest, with over 80 students from various departments participating. The high turnout highlighted the growing relevance of APIs in modern software development and the students' eagerness to enhance their technical skills.

Workshop Content

The workshop was structured to provide a comprehensive understanding of APIs, focusing on both theoretical knowledge and practical application. The session was led by experts from POSTMAN, a leading platform in API development and management.

Introduction to POSTMAN and APIs:

The workshop began with an introduction to POSTMAN, its history, and its role in simplifying API development.

Experts provided a detailed overview of APIs, their importance in software development, and how they facilitate communication between different software systems.

Deep Dive into POSTMAN APIs:

Participants were introduced to the POSTMAN platform, exploring its features and functionalities.

The experts demonstrated how to create, test, and manage APIs using POSTMAN, highlighting best practices and common pitfalls.

Use Cases and Practical Applications:

The session included discussions on real-world use cases of POSTMAN APIs, showcasing their impact across various industries.

Students had the opportunity to engage in hands-on activities, creating and testing their APIs under the guidance of POSTMAN professionals.

Feedback and Outcomes

The workshop was well-received, with students expressing appreciation for the clarity and expertise provided by the POSTMAN team. Many participants noted that the session enhanced their understanding of APIs and equipped them with practical skills that are immediately applicable in their academic and personal projects.

The interactive nature of the workshop, coupled with real-time demonstrations, allowed students to gain a practical understanding of API development, which they found both engaging and educational.

Conclusion

The API workshop organized by CIIE in collaboration with POSTMAN on November 2nd, 2024, was a successful event that significantly contributed to the technical knowledge of the students. The workshop not only met but exceeded expectations, providing valuable insights into the world of APIs and their applications.

API Fundamental Workshop on November 2-3, 2023

1 message

CIIE SRMUH <ciie@srmuniversity.ac.in>
To: everyone@stu.srmuniversity.ac.in

Mon, Oct 30, 2023 at 11:39 PM

Dear All

We're excited to invite you to our upcoming API Fundamental Workshop on November 2-3, 2023, at SRM University Delhi-NCR, Sonapat, Haryana.

This workshop is your gateway to understanding the core concepts and best practices that power the modern digital landscape. Whether you're a seasoned developer, a tech enthusiast, or a professional looking to leverage APIs for business growth, this event is tailored to your needs.

What to Expect:

In-depth learning from expert speakers.

Hands-on practice through interactive coding sessions.

Networking opportunities to connect with like-minded professionals.

Earn the Postman Student Expert Badge and receive swag from Postman.

Don't miss this chance to dive into the world of APIs and equip yourself with the knowledge and skills needed to thrive in the digital age. We look forward to seeing you at the API Fundamental Workshop!

<https://forms.gle/bAF65fB9tS24VvF36>

For any inquiries or additional information, please contact Sajal Batra at sajalbatra7@gmail.com or 9818467914.

UI/UX Workshop Organized by CIIE

Event Overview

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, organized an engaging and educational workshop on UI/UX design on November 1st, 2023. This workshop was crafted to introduce students to the fundamentals of User Interface (UI) and User Experience (UX) design, focusing on the principles and practices that create intuitive, user-friendly digital products.

Participation

The workshop attracted the participation of over 60 students from various departments, all eager to learn about the latest trends and techniques in UI/UX design. The participants were diverse in their backgrounds, ranging from beginners with little to no experience in design to more advanced students looking to refine their skills.

Workshop Content and Structure

The workshop was structured to provide both theoretical knowledge and practical experience, ensuring that students gained a well-rounded understanding of UI/UX design.

Introduction to UI/UX:

The session began with a comprehensive introduction to UI and UX design, including an explanation of key concepts and the difference between the two disciplines.

Participants learned about the importance of UI/UX in creating digital products that are not only functional but also enjoyable to use.

Design Principles and Best Practices:

CIIE core team members, who served as mentors for the workshop, guided students through essential design principles such as color theory, typography, layout, and user-centered design.

The mentors emphasized best practices for designing intuitive interfaces that enhance user experience.

Hands-on Training:

Following the theoretical sessions, students engaged in hands-on training where they were tasked with designing their own UI/UX projects.

Participants worked on creating wireframes, mockups, and prototypes using popular design tools. Mentors provided one-on-one guidance, helping students navigate the challenges of the design process.

Competitions and Evaluation:

To encourage creativity and practical application of the skills learned, competitions were held among the participants. Each student or team submitted their UI/UX design projects for evaluation. The projects were judged based on criteria such as creativity, functionality, user experience, and overall design quality.

Awards and Recognition

The top-performing participants were recognized for their outstanding work:

Winners:

The winners of the competition were awarded goodies as a token of appreciation for their creativity and hard work. These awards served to motivate students to continue exploring and developing their skills in UI/UX design.

Feedback and Impact

The UI/UX workshop was met with positive feedback from the participants. Many students expressed their appreciation for the hands-on approach, which allowed them to apply theoretical knowledge to real-world design challenges. The mentorship provided by CIIE core team members was also highlighted as a key factor in the success of the workshop, as it offered personalized guidance and support.

Participants reported a significant boost in their confidence in UI/UX design, with several indicating plans to further pursue this area of study or consider it as a potential career path. The competitive aspect of the workshop also added excitement and motivation, pushing students to produce their best work.

Conclusion

The UI/UX workshop held on November 1st, 2023, was a highly successful event organized by CIIE, achieving its goal of introducing students to the vital field of UI/UX design. The combination of theoretical knowledge, practical training, and competition fostered an environment of learning, creativity, and innovation.

Dear Students

Greetings from CIIE 🤗🤗

We are having a one-day workshop on UI/UX design in which we'll be teaching you how to design user-friendly and interactive websites, and we'll also be teaching you about the different tools provided by Figma and the various features of them.

Date - November 1st, 23

Timing: 🕒 10:30 a.m.–4:00p.m

Certificates will be provided to all the attendees 🎓🎓.

Additionally, the institution will supply bus services for transportation from Majlis Park Metrostation for Delhi Students

Register Now: 🔗 - <https://forms.gle/EfPxdzLZZ69uawFv7>

Best Regards

Microcontroller Training Workshop on Arduino

Event Title: Microcontroller Training on Arduino

Organized by: Centre for Innovation, Incubation, and Entrepreneurship (CIIE), SRM University Delhi-NCR, Sonapat

Dates: 28th and 29th October 2023

Time: 10:00 AM to 4:00 PM

Venue: 102, Engineering Block.

Overview

The CIIE of SRM University Delhi-NCR, Sonapat, successfully organized a two-day hands-on workshop on Microcontroller Training with Arduino on the 28th and 29th of October 2023. The workshop was designed to provide participants with comprehensive knowledge and practical experience in microcontroller programming and sensor integration using Arduino. The event saw enthusiastic participation from more than 50 students, who were eager to delve into the world of embedded systems and microcontroller applications.

Event Details

The workshop was meticulously structured to cover both the theoretical and practical aspects of working with Arduino microcontrollers. The sessions were facilitated by the CIIE core team, who acted as mentors throughout the event.

Day 1:

- **Introduction to Arduino Hardware:** The workshop began with an introduction to the Arduino platform, where participants were acquainted with the basic components of the Arduino board, including its microcontroller, input/output pins, and power supply.
- **Introduction to Sensors:** Participants were then introduced to various sensors that could be interfaced with the Arduino board. The session covered temperature sensors, motion sensors, light sensors, and more.
- **Coding with Arduino:** In the latter part of the first day, the focus shifted to the coding aspect. The mentors demonstrated how to write basic programs in the Arduino Integrated Development Environment (IDE), guiding the participants through the

process of uploading code to the microcontroller and executing simple tasks like blinking an LED.

Day 2:

- **Project-Based Learning:** The second day of the workshop was dedicated to project-based learning. Participants were grouped and assigned different mini-projects that utilized the sensors introduced on the first day. These projects were designed to reinforce the participants' understanding of microcontroller programming and sensor integration.
- **Final Project - Remote Control Car:** As a capstone project, participants were challenged to design and build a remote control car using Arduino. The project required them to apply the skills they had learned over the two days, including coding, circuit design, and sensor integration.

Outcome

The workshop concluded successfully with all participants completing their remote control car projects. The hands-on approach ensured that students not only learned the theoretical aspects of microcontrollers but also gained practical experience in applying these concepts to real-world scenarios. The event was highly appreciated by the participants, who expressed their eagerness to engage in more such practical learning opportunities.

Acknowledgments

We extend our sincere thanks to the CIIE core team for their dedication and mentorship throughout the workshop. Their guidance was instrumental in the success of the event. We also thank all the participants for their active involvement and enthusiasm, which made the workshop a memorable learning experience.

Conclusion

The Microcontroller Training on Arduino workshop was a significant step toward fostering innovation and technical skills among students. The hands-on experience gained by the participants will undoubtedly serve as a strong foundation for their future endeavors in the field of electronics and embedded systems.

Dear Students

CIIE is going to conduct a two days training session on Arduino micro-controller. Students interested in the training may register the following form.

The session will be conducted on Saturday and Sunday i.e. 28th and 29th Oct 2023 from 10AM to 4 PM.

Transportation will be provided from Majlis Park Metro Station for Delhi Students and Sonapat bus stand for Sonapat students and others.

Visit to Sonapat Startup Summit 2023

Event Overview

On September 22nd, 2023, the Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, organized a visit to the Sonapat Startup Summit held at IIT Delhi Techno Park in Sonapat. This visit aimed to expose students and faculty members to the dynamic world of startups and entrepreneurship, providing them with insights into the latest trends, challenges, and opportunities in the startup ecosystem.

Participation

The visit saw active participation from over 50 students and 4 faculty members, all of whom have a keen interest in pursuing careers in entrepreneurship and startups. The diverse group included students from various disciplines, reflecting the interdisciplinary nature of startup culture.

Key Highlights of the Visit

Summit Overview and Introduction:

Upon arrival at the IIT Delhi Techno Park, participants were given an overview of the Sonapat Startup Summit by the event organizers.

The summit featured a series of talks, panel discussions, and networking sessions, providing a comprehensive look into the startup landscape.

Talks and Panel Discussions:

Participants attended various talks and panel discussions led by successful entrepreneurs, venture capitalists, and industry experts.

Topics covered included the challenges of scaling a startup, innovation in business models, the role of technology in entrepreneurship, and funding strategies for startups.

The sessions were highly interactive, with participants engaging in Q&A sessions, gaining valuable insights from the speakers.

Networking Opportunities:

The summit provided ample networking opportunities, allowing students and faculty to interact with startup founders, investors, and other attendees.

These interactions were instrumental in helping participants understand the practical aspects of entrepreneurship, including the importance of building a professional network, finding mentors, and seeking collaborations.

Exhibition and Startup Showcase:

The event featured an exhibition area where startups from various sectors showcased their products and services.

Participants had the chance to explore these exhibits, learning about innovative solutions across industries such as technology, healthcare, education, and more.

The startup showcase was particularly inspiring, as it allowed students to see first-hand the impact of entrepreneurship and innovation.

Faculty Involvement and Guidance:

The faculty members who accompanied the students played a crucial role in guiding them through the summit, helping them connect theoretical knowledge with real-world applications. They facilitated discussions among students, encouraging them to reflect on what they learned and how it could be applied to their entrepreneurial aspirations.

Feedback and Outcomes

The visit to the Sonepat Startup Summit was a highly enriching experience for both students and faculty members. The participants appreciated the opportunity to learn from industry leaders, network with like-minded individuals, and witness the vibrant startup culture in action. Students reported that the summit inspired them to think more critically about their own startup ideas and consider the practical steps required to bring those ideas to life. The event also highlighted the importance of continuous learning, adaptability, and resilience in the entrepreneurial journey.

Faculty members noted the positive impact of the visit on students' enthusiasm for entrepreneurship, with many expressing a renewed interest in pursuing startup ventures and participating in future CIIE activities.

Conclusion

The visit to the Sonepat Startup Summit, organized by CIIE on September 22nd, 2023, was a successful initiative that significantly contributed to the entrepreneurial education and aspirations of the participants. The event provided a platform for students and faculty to engage with the startup community, gain practical insights, and build connections that will be valuable in their future endeavors.

Dear Members of CIIE and Students of SRM University

The following trailing mail is received from AIC IIT Delhi Sonipat Foundation for the "Sonipat Startup Summit (SSS) being organized on Aug 31-Sept 2, 2022 at IIT Delhi Technopark, Sonipat, Delhi NCR." AIC IIT Delhi Sonipat Foundation is very keen to have lot of participation from the students of SRM University. It is a great opportunity for the students who are very keen in starting a Startup, Innovative ideas, future Entrepreneurs from the students community. Students who are keen to participate in the summit may register online through the given link :

<http://rb.gy/clagsk>

Please read through the brochure and those who have registered, please send a two line mail to the undersigned that they have registered. The no of students participating will have to be informed to the organisers for making the necessary arrangements.

Thank You and Regards

Dear Sir/Ma'am,

AIC IIT Delhi Sonipat Foundation invites innovative ideas from budding entrepreneurs, innovators, students, and startups across India for its upcoming initiative - **Sonipat Startup Summit (SSS)** being organized on **Aug 31-Sept 2, 2022** at **IIT Delhi Technopark, Sonipat, Delhi NCR.**

The 1st edition, '**SSS 2022**' will attract budding entrepreneurs, students, and innovators who have innovative technology-based solutions to build scalable and sustainable technology ventures.

AIC IIT Delhi is a technology business incubator empowering early-stage founders to build scalable and sustainable technology ventures by leveraging IIT Delhi's vast network pool, we provide startups with the right support, expertise, and tools necessary to execute pilots, build products, and secure investments.

Who should apply:

1. Budding entrepreneurs and innovators working/ having the intention of working towards innovative technology-based solutions.
2. Student teams with ideation and early stage or ready prototypes.
3. Startups in the early stage of prototype/ MVP/ Commercialization.

You are requested to nominate and share this message among the students in your esteemed institution; please find the poster attached to this email for your needful action.

Attached: The event Brochure & Poster
Apply by 20.08.2022: <http://rb.gy/clagsk>
E: info@aic-iitd.in M: 7496959612

Look forward to your support and participation.

Thanks & regards,

Dear Sir

IIT Delhi Technopark, Sonapat campus is going to organize a one day Startup expo on 22rd Sept 2023. Following their invitation, approximately 50 students of our university have registered for attending the event.

I request you to provide the transport facility from our campus to IIT Delhi Technopark and back to University campus on 22rd Sept 2023.

The Event inaguration will start from 11 AM onwards.

Thanks and regards

Dr. Md Ahamad Mohiddon

SONIPAT STARTUP SUMMIT | CONNECT | CREATE | COLLABORATE

AIC IIT DELHI

Sonipat Innovation Foundation

**SONIPAT
STARTUP
SUMMIT**
CONNECT | CREATE | COLLABORATE

31st AUG - 2nd SEPT 2022
IIT Delhi Technopark, RGEC
Sonipat, Haryana - 131029

Overview

AIC IIT Delhi is a **Technology Business Incubator** empowering **early-stage founders** to build scalable and sustainable technology ventures by leveraging IIT Delhi's vast network pool, we provide startups with the right support, expertise and tools necessary to execute pilots, build products and secure investments.

Objective

- ▶ Inspiring students towards Innovation & Entrepreneurship
- ▶ Help Students and Startups understand the Entrepreneurial Ecosystem
- ▶ Bridge to bring Startups, MSME's & Investors under one umbrella
- ▶ An opportunity for Startups and Students to interact with Mentors, Investors and Industry Experts
- ▶ Platform for startups to kickstart their entrepreneurial journey with support of AIC IIT Delhi's Incubation Program
- ▶ No Cost Incubation Opportunity along with Prizes worth INR 5 Lakhs to Summit Winners
- ▶ Opportunity to solve real world problems and provide better solutions
- ▶ A step towards incentivizing innovative thinking

Focus Sectors

Robotics

Manufacturing

Agri Tech

Environmental Tech

Textile Tech

Health & Sports

SONIPAT STARTUP SUMMIT | CONNECT | CREATE | COLLABORATE

SONIPAT STARTUP SUMMIT | CONNECT | CREATE | COLLABORATE

- 30 TEAMS • INNOVATION • NETWORKING
- STARTUP EXPO • INVESTORS • MENTORS
- TECHNOLOGY • LEARNING OPPORTUNITY

Web Development Workshop Organized by CIIE

Event Overview

The Centre for Innovation, Incubation, and Entrepreneurship (CIIE) at SRM University Delhi-NCR, Sonapat, organized a hands-on workshop on Web Development on September 27th, 2023. The workshop was aimed at equipping students with foundational skills in web development, focusing on HTML, CSS, and JavaScript. This event took place in the Conference Hall, located on the 5th floor of the Engineering Block.

Participation and Structure

The workshop attracted a diverse group of students eager to learn about web development. The session was designed to cater to beginners, with a mix of theoretical explanations and practical sessions.

Introduction to Web Development:

The workshop began with a comprehensive introduction to the basics of web development, covering HTML, CSS, and JavaScript.

HTML: Students were taught how to structure web pages using HTML, including the use of various tags and attributes.

CSS: The session then moved on to styling web pages with CSS, where students learned about selectors, properties, and how to create visually appealing layouts.

JavaScript: Finally, the basics of JavaScript were introduced, focusing on adding interactivity to web pages.

Mentorship and Guidance:

The CIIE core team members served as mentors throughout the workshop, guiding the participants through the learning process.

Mentors provided individual attention, helping students with coding challenges and ensuring that everyone was able to follow along with the practical exercises.

Project Submission:

As part of the workshop, students were encouraged to apply what they had learned by working on basic web development projects.

These projects were designed to reinforce the concepts taught during the workshop, with students submitting their completed projects for evaluation.

Evaluation and Awards

The submitted projects were reviewed by a panel of mentors from the CIIE core team. The evaluation criteria included the quality of code, creativity in design, and overall functionality of the projects.

Top Three Projects:

The top three students were identified based on their project submissions. These students demonstrated exceptional understanding and application of web development principles.

As a token of appreciation, goodies were awarded to the winners, acknowledging their hard work and dedication.

Feedback and Impact

The workshop was met with enthusiasm from the participants, who appreciated the opportunity to learn and apply web development skills in a supportive environment. The hands-on approach, combined with mentorship from CIIE core team members, was particularly well-received.

Students expressed that the workshop not only provided them with valuable technical skills but also boosted their confidence in tackling coding projects independently. The event succeeded in laying a strong foundation for future learning in web development.

Conclusion

The Web Development Workshop held on September 27th, 2023, was a successful initiative by CIIE, fulfilling its goal of fostering technical skills among students. The event not only introduced participants to the fundamentals of web development but also provided them with a platform to showcase their skills through project work.
