

7.1.4

Water conservation facilities available in the Institution

INDEX

Sr. No.	Details of Evidence
1	Facilities for Water conservation measures

Facilities for Water conservation measures

A) Rain water harvesting:

Rain water harvesting tanks have been made and all the rain water from roofs of the buildings on the campus is being diverted to these tanks, through a network of pipes. Filtration is carried out of collected rain water and finally, it is used for domestic purpose.

(A) RAIN WATER HARVESTING

SRM UNIVERSITY DELHI-NCR, SONEPAT

Established under Haryana Private Universities Act 2006 as amended by Act no.8 of 2013 and recognized by UGC u/s 2(f) of UGC Act, 1956

39, Rajiv Gandhi Education City, Delhi-NCR, Sonapat-131029, Haryana (India)
Tel : 0130-2203700-01 | Tollfree : 1800 180 1216 | Website : www.srmuniversity.ac.in

B) Bore well / Open well recharge:

The network of pipes are used to collect the water where rain water is not collected and it is sent back to recharge the ground water.

(B) Open well recharge

C) Construction of tanks and bunds:

Campus is equipped with underground water tanks for storage of water for catering needs of the faculty and staff at Academic Buildings and Hostel premises.

(C) Construction of Tanks
