Observations and Conclusions:

- Utilization of services of the Directorate of Sport by the Students ranges between 50 to 71 and that for staff ranges between 24 to 68.
- The figures show a gradual increase except for the year 2021-2022, which has been affected by the Covid pandemic
- The percentage of students and staff utilizing Directorate of Sports facilities steadily increases. This may be attributed to conscious and strategic planning of increasing the advocacy, conduct of no of events, and reaching out to all stakeholders.
